Society Marianne Chouteau, Joelle Forest, Céline Nguyen, 2020-11-03 In a context marked by unprecedented challenges the struggle against inequalities climate change etc innovation appears to be the readymade universal scapegoat Innovation for Society however suggests that we look at innovation differently by inviting us to innovate with consciousness To do this the authors introduce an approach they call Penser le Sens de l'Innovation P S I or thinking about the meaning of innovation comprising a set of tools largely from the humanities and social sciences observation cartography creativity storytelling etc to lead us to this meaning By considering the question of meaning from the point of view of both direction and signification the authors rehabilitate the eminently political question of knowing which innovations we choose for which societies **India's**
