**Stuart Brown, Diane Collinson, Robert
Wilkinson**

Oeuvres De Victor Delbos:

Oeuvres de Victor Delbos Victor Delbos,2012 **The Breakdown of Cartesian Metaphysics** Richard A.

Watson,1998-01-01 Combines historical research and philosophical analysis to cast light on why and how Cartesianism failed as a complete metaphysical system Far more radical in its conclusions than his 1966 study *The Downfall of Cartesianism* a slightly revised version of which forms the main body of the current work Watson argues that Descartes s ontology is incoherent and vacuous his epistemology deceptive and his theology unorthodox indeed that Descartes knows nothing

The Downfall of Cartesianism 1673-1712 R. A. Watson,2013-04-17 Phenomenalism idealism spiritualism and other contemporary philo sophical movements originating in the reflective experience of the cogito witness to the immense influence of Descartes However Carte sianism as a complete metaphysical system in the image of that of the master collapsed early in the 18th century A small school of brilliant Cartesians almost all expert in the new mechanistic science flashed like meteors upon the intellectual world of late 17th century France to win well deserved recognition for Cartesianism They were accompanied by a scintillating comet Ma1ebranche the deviant Cartesian now remembered as the orthodox Cartesians are not However all these bright lights faded upon the philosophical horizon almost as soon as they appeared The metaphysical dualism of Des cartes was as such neither to be preserved nor reconstructed There are many reasons why the Cartesian system did not survive the victory over Scholasticism which Descartes Malebranche and the others had won Newtonian physics very soon replaced Cartesian physics The practical interest and success of the new science which the Cartesians themselves had nurtured drew men down from the lofty realms of metaphysics On the popular front Cartesianism was attacked and ridiculed for the view that animals are unthinking machines In the schools of Paris and elsewhere there was the general but severe opposition of pedants which is perhaps of more historical than philosophical interest *The Cambridge Companion to Malebranche* Steven Nadler,2000-07-03 This Companion contains specially commissioned essays addressing Malebranche s thought comprehensively and systematically

De la Recherche du Bien A.G. Walton,2013-12-17 **Heidegger and French Philosophy** Tom Rockmore,2002-09-11 Martin Heidegger s impact on contemporary thought is important and controversial However in France the influence of this German philosopher is such that contemporary French thought cannot be properly understood without reference to Heidegger and his extraordinary influence Tom Rockmore examines the reception of Heidegger s thought in France He argues that in the period after the Second World War due to the peculiar nature of the humanist French Philosophical tradition Heidegger became the master thinker of French philosophy Perhaps most importantly he contends that this reception first as philosophical anthropology and later as postmetaphysical humanism is systematically mistaken Foucault's Legacy C.G. Prado,2011-10-20 Foucault s Legacy brings together the work of eight Foucault specialists in an important collection of essays marking the 25th anniversary of Foucault s death Focusing on the importance of Foucault s most central ideas for present day philosophy the

book shows how his influence goes beyond his own canonical tradition and linguistic milieu The essays in this book explore key areas of Foucault's thought by comparing aspects of his work with the thought of a number of major philosophers including Nietzsche Heidegger Rorty Hegel Searle Vattimo and Williams Crucially the book also considers the applicability of his central ideas to broader issues such as totalitarianism religion and self sacrifice Presenting a fresh and exciting vision of Foucault as a philosopher of enduring influence the book shows how important Foucault remains to philosophy today

Politics and Philosophy in the Thought of Destutt de Tracy Brian W. Head, 2019-11-21 First published in 1987 This study describes and analyses the published writings of the French philosopher Antoine Destutt de Tracy The author focuses on the three decades from the calling of the *Etats généraux* to the early years of the Restoration the period of Tracy's entire literary production and the period of his greatest influence and reputation This title will be of great interest to students of history philosophy and politics

The Blondelian Synthesis John J. McNeill, 2022-07-18

The Metamorphoses of the City of God Etienne Gilson, Remi Brague, 2020-10-16 Etienne Gilson 1884-1978 was a French philosopher and historian of philosophy as well as a scholar of medieval philosophy In 1946 he attained the distinction of being elected an Immortal member of the Académie française He was nominated for the Nobel Prize in Literature in 1959 and 1964 The appearance of Gilson's *Metamorphosis of the City of God* which were originally delivered as lectures at the University of Louvain Belgium in the Spring of 1952 coincided with the first steps toward what would become the European Union The appearance of this English translation coincides with the upheaval of Brexit Gilson traces the various attempts of thinkers through the centuries to describe Europe's soul and delimit its parts The Scots Catalonians Flemings and probably others may nod in agreement in Gilson's observation on how odd would be a Europe composed of the political entities that existed two and a half centuries ago Those who think the European Union has lost its soul may not be comforted by the difficulty thinkers have had over the centuries in defining that soul Indeed the difficulties that have thus far prevented integrating Turkey into the EU confirm Gilson's description of the conundrum involved even in distinguishing Europe's material components And yet the endeavor has succeeded so that the problem of shared ideals remain inescapable One wonders which of the thinkers in the succession studied by Gilson might grasp assent and illuminate the EU's path

The Enlightenment and the Intellectual Foundations of Modern Culture Louis Dupré, 2008-10-01 The prestige of the Enlightenment has declined in recent years Many consider its thinking abstract its art and poetry uninspiring and the assertion that it introduced a new age of freedom and progress after centuries of darkness and superstition presumptuous In this book an eminent scholar of modern culture shows that the Enlightenment was a more complex phenomenon than most of its detractors and advocates assume It includes rationalist as well as antirationalist tendencies a critique of traditional morality and religion as well as an attempt to establish them on new foundations even the beginning of a moral renewal and a spiritual revival The Enlightenment's critique of tradition was a necessary consequence of the fundamental modern principle that we humans are solely responsible for the course of history

Hence we can accept no belief no authority no institutions that are not in some way justified This foundation for better or for worse determined the course of the following centuries Despite contemporary reactions against it the Enlightenment continues to shape our own time and still distinguishes Western culture from any other **The Modern Schoolman** ,1996

The Idealist Illusion and Other Essays Maurice Blondel,2013-03-09 I was very happy when in 1997 Fiachra Long came to spend part of his sabbatical leave at the Archives Maurice Blondel at Louvain la Neuve This allowed him to bring together and complete his translation of three important articles from Maurice Blondel known as the philosopher of Aix en Provence These three articles form a unity they make explicit certain aspects of the method used in the great thesis of 1893 Action This thesis it is well known aroused many polemic debates after its appearance Thomist theologians accused Blondel of turning back towards Kantian idealism whereas the philosophers of the Revue de metaphysique et de morale accused him on the contrary of falling back on a pre critical realism The three articles translated here each in its own way attempt to pass beyond these two opposite charges The Idealist Illusion 1898 underlines the fact that the content of consciousness should be unfurled as it appears by withdrawing from any idealist or realist prejudice before judging the consistency of its content as a whole In this way Blondel supports the phenomenological method used in his thesis The Elementary Principle of a Logic of the Moral Life 1903 is a very well worked text which shows that the logic of possession and privation is broader than the logic of affirmation and negation Using these words Blondel develops certain striking laws of action such as that of the parallelogram of contrary forces **Praktische Vernunft und Theorien Der Gerechtigkeit** Werner Maihofer, Gerhard Sprenger,1992 Aus dem Inhalt H Klenner Was bleibt von der marxistischen Rechtsphilosophie N Lacey Theories of Justice and the Welfare State Shigeaki Tanaka On Libertarian Theories of Justice M Arkoun An Islamic Theory of Justice L Lombardi Vallauri Eine römisch katholische Theorie der Gerechtigkeit A Kaufmann Widerstand im Dritten Reich A Squella Human Rights and Positive Law C D Johnson Must a Conception of Justice be True A MacLeod Distributive Justice Equality and Rationality H Khatchadourian Need and Distributive Justice E E Dais Universal Justice and Discourse Ethics Habermas s Kantian Mistake G LaFrance La raison pratique dans les theories neo liberales de la justice S Panou Raison pratique et justice A Mineau Droit et morale en contexte totalitaire E Lagerspetz S Vihjanen Institutional Mercy S Harwood Is Mercy Unjust K Tuori Critical Positivism and the Problem of the Legitimacy of Law K Sevón The Practical Concept of Power and the Practical Power of Concepts W L Robison Constitutional Adjudication and Constitutive Conditions T Papadopoulos Kritik an der Gerechtigkeitskonzeption Alasdair MacIntyre T D Campbell Ethical Markets Takao Katsuragi On the Ethics of Competition D Wood Outline of a Theory of Business Justice H Hof Recht Verhalten Anthropologie E J Lampe Entwicklungslinien in der rechtsanthropologischen Forschung G Sprenger Gegenseitigkeit und praktische Vernunft M Szyszkowska Die Philosophie des Menschen in den Theorien des Naturrechts im 20 Jh *A Thomistic Tapestry* Peter A. Redpath,2003 This book written by well known students of Etienne Gilson and especially dedicated to Armand A Maurer helps inaugurate a long overdue special

series in philosophy honoring Gilson's legendary scholarship. It presents wide-ranging expositions of Thomist realism in the tradition of Gilsonian humanism covering themes related to philosophy in general, historical method, aesthetics, metaphysics, epistemology, and politics. Vers un réalisme intégral l'œuvre philosophique de Maurice Blondel Paul Archambault, 1928

Oeuvres de Maine de Biran Pierre Maine de Biran, 1924 Biographical Dictionary of Twentieth-Century Philosophers Stuart Brown, Diane Collinson, Robert Wilkinson, 2012-09-10. This Biographical Dictionary provides detailed accounts of the lives, works, influence, and reception of thinkers from all the major philosophical schools and traditions of the twentieth century. This unique volume covers the lives and careers of thinkers from all areas of philosophy, from analytic philosophy to Zen, and from formal logic to aesthetics. All the major figures of philosophy, such as Nietzsche, Wittgenstein, and Russell, are examined and analysed. The scope of the work is not merely restricted to the major figures in western philosophy but also covers in depth a significant number of thinkers from the near and far east and from the non-European, Hispanic language communities. The Biographical Dictionary also includes a number of general entries dealing with important schools of philosophy, such as the Vienna Circle, or currents of thought, such as vitalism. These allow the reader to set the individual biographies in the context of the philosophical history of the period. With entries written by over 100 leading philosophy scholars, the Biographical Dictionary is the most comprehensive survey of twentieth-century thinkers to date. **Structure** The book is structured alphabetically by philosopher. Each entry is identically structured for ease of access and covers nationality, dates and places of birth and death, philosophical style or school, areas of interest, higher education, significant influences, main appointments, main publications, secondary literature, account of intellectual development, and main ideas, critical reception, and impact. At the end of the book, a glossary gives accounts of the schools, movements, and traditions to which these philosophers belonged, and thorough indexes enable the reader to access the information in several ways: by nationality, by major areas of contribution to philosophy (e.g. aesthetics), by major influences on the thinker concerned (e.g. Plato, Kant, Wittgenstein). *Reappraisals of Jean Jacques Rousseau* R. A. Leigh, Simon Harvey, 1980 **The Encyclopedia of Philosophy**, 1967

Unveiling the Magic of Words: A Report on "**Oeuvres De Victor Delbos**"

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their power to kindle emotions, provoke contemplation, and ignite transformative change is actually awe-inspiring.
