Rosanvallon,2021-11-12 Populism is an expression of anger its appeal stems from being presented as the solution to disorder in our times The vision of democracy society and the economy it offers is coherent and attractive At a time when the words and slogans of the left have lost much of their power to inspire Pierre Rosanvallon takes populism for what it is the rising ideology of the twenty first century In *The Populist Century* he develops a rigorous theoretical account of populism distinguishing five key features that make up populist political culture he retraces its history in modern democracies from the mid nineteenth century to the present and he offers a well reasoned critique of populism outlining a robust democratic alternative This wide ranging and insightful account of the theory and practice of populism will be of great interest to students and scholars in politics and the social sciences and to anyone concerned with the key political questions of our time

of constitutional advisor or by seeking to shape the dominant language in which his contemporaries think Weber sought to reconstitute the political and social vocabulary of his day Part I of *Caesarism Charisma and Fate* examines a great writer's political passions and the linguistic creativity they generated Specially it is an analysis of the manner in which Weber reshaped the nineteenth century idea of Caesarism a term traditionally associated with the authoritarian populism of Napoleon III and Bismarck and transmuted it into a concept that was either neutral or positive The coup de grace of this alchemy was to make Caesarism reappear as charisma In that transformation a highly contentious political concept suffused with disapproval and anxiety was naturalized into an ideal type of universal value free sociology Part II augments Weber's ideas for the modern age A recurrent preoccupation of Weber's writings was human fate a condition that evokes the pathos of choice the political meaning of death and the formation of national solidarity Peter Baehr marrying Weber and Durkheim fashions a new concept community of fate for sociological theory Communities of fate such as the Warsaw Ghetto or Hong Kong dealing with the Severe Acute Respiratory Syndrome SARS crisis are embattled social sites in which people face the prospect of collective death They cohere because of an intense and broadly shared focus of attention on a common plight Weber's work helps us grasp the nature of such communities the mechanisms that produce them and not least their dramatic consequences      *Caesar and the Fading of the Roman World* Peter Baehr,      *Œuvres de Voltaire* Voltaire, 1830
