Play It Again, Sam Samuel Jay Keyser, 2025-05-27 Why we enjoy works of art and how repetition plays a central part in the pleasure we receive Leonard Bernstein in his famous Norton Lectures extolled repetition saying that it gave poetry its musical qualities and that music theorists' refusal to take it seriously did so at their peril Play It Again Sam takes Bernstein seriously In this book Samuel Jay Keyser explores in detail the way repetition works in poetry music and painting He argues for example that the same cognitive function underlies both how poets write rhyme in metrical verse and the way songwriters like Duke Ellington and Billy Strayhorn Satin Doll and Richard Rodgers and Lorenz Hart My Funny Valentine construct their iconic melodies Furthermore the repetition found in these tunes can also be found in such classical compositions as Mozart's Rondo alla Turca and his German Dances as well as in galant music in general The author also looks at repetition in paintings like Gustave Caillebotte's Rainy Day in Paris Andy Warhol's Campbell's Soup Cans and Jackson Pollock's drip paintings Finally the photography of Lee Friedlander Roni Horn and Osmond Giglia Giglia's Girls in the Windows is one of the highest grossing photographs in history are all shown to be built on repetition in the form of visual rhyme The book ends with a cognitive conjecture on why repetition has been so prominent in the arts from the Homeric epics through Duke Ellington and beyond Artists have exploited repetition throughout the ages The reason why is

straightforward the brain finds the detection of repetition innately pleasurable Play It Again Sam offers experimental evidence to support this claim **Connecting to Life's Compass** Dee Weldon Bird,2019-05-05 Curious to know more about how and why life began on Earth as well as your reason for being here If so you will enjoy this ultimate introspective book of knowledge Connecting to Life's Compass You're not lost you just think you are which provides an introduction about the universe and how life began Life's Compass is truly a compass offering a journey of going back to go forward It will help you to remember taking you to the energy source of all life past the flesh and bones to the reality of what life really means We have been searching for the meaning of life but first we have to be able to understand fully what the meaning of life encompasses The truth lies in each and every one of us but it is buried deep inside This is where the treasures stories and mysteries of life lie The truth is in the core of our soul of everyone and everything The core is infinite and everywhere It is in everything that you see separate from you in every particle and in every cell because in material nothing is left out

Were You Raised by Wolves? Christie Mellor, 2008-04-08 Perhaps in your parents' eagerness to smooth life's bumpy road, they took such good care of you that you never learned how to be a self-sufficient human being. And now here you are, all grown up. What next? You may think you don't really need to know how to make a proper cup of coffee. You've never given much thought to your listening skills or how one goes about saving money or stocking a bar. But knowing these things will really make you a much more well-rounded and all-around more charming and useful person, one who is more apt to be invited over for dinner. In fact, a lot of us might benefit from having a few gentle hints about housekeeping habits and behavior lobbed in our general direction. With advice and information ranging from How to Boil an Egg to How to Go a Whole Day Without Spending Money in chapters as diverse as the Upside of Being Single and Lonely and the Hangover Badge of Courage or Waste of a Day, Were You Raised by Wolves? will help you come away more confident about important issues such as where the hell to put those flowers somebody brought over last night. So let's all of us embrace our adulthood, shall we? If your mother still chews your food for you and your dad still fills your gas tank, it's time to put on those big boy pants and jump into the deep end of the pool where the grown-ups swim.

Raised by Wolves Christie Mellor, 2010-06-15 A hilarious guide for those raised by wolves, born in a barn or otherwise unacquainted with the standard rules of adulthood. Once upon a time, young adults with a modicum of social skills and the basic know-how to run a household were let loose upon a grateful world. But no longer. How did this come about? Why are so-called grown-ups often unable to make their beds and clean up

their own kitchens Perhaps Mom shouldn't have done all of Junior's science projects for him Maybe Dad should have made Tiffany take that summer job in college instead of paying her way through Europe But fear not Christie Mellor is here to help you prepare for the real world with essential skills like these How to poach a chicken and what to do with it when you're done How to make the perfect martini Twenty five amazing uses for baking soda How not to annoy your friends when you break up with your boyfriend And so much more In short here's everything you need to know in order to jump into the deep end of the pool with the rest of the adults *Forty Days of Fire, Forty Days of Rain* Douglas McDaniel,2009-05-23

Challenged by the strange currents and savage storms of his life author Douglas McDaniel captures an apocalyptic age of turmoil that began with the election of George W Bush in 2000 and an oddly coincidental solar storm occurring in New England This personal narrative leads all of the way through eight years of disaster on the North American continent It is a living novel and commentary on life during wartime on strange weather and social chaos a rave and borderline blog by one man trying to stay ahead of the wave during a new century spinning out of control *This Way Up* Map Men,2025-11-04 The debut book from the YouTube sensation and all round cartographical nerds The Map Men Hello we're the Map Men and in the following pages we've selected what we believe to be some of the very best wrong maps Some of them are decades old some are centuries old and some are so recent they're still being published today or yesterday if you're reading this tomorrow In *This Way Up* we delve into laugh out loud funny hilarious geographical gaffes including world maps that forego entire countries colonial maps with mathematically impossible borders and made up mountain ranges maps of US states with fake cities painfully incorrect maps on live news channels and more Whether you're an avid map junkie or simply map curious each chapter uncovers a unique tale of adventure error and unexpected humor as we attempt to answer the question What on earth happened here So ditch the compass or open settings and tap disable location services and set out on a journey with us the Map Men into a world of cartographic chaos and mappy mishaps Because the worst maps are the best maps
