

FLOWERS AND POLLINATION

Video. Teachers, please view this prior to the lesson to select the most appropriate section/ material for your class.

You can use sections of this video regularly to supplement the lesson material in this unit

Teachers, before beginning the remainder of this lesson, purchase or ask students to bring in samples of flowers that demonstrate differences in shape, size, colour and perfume, *including samples that clearly show the pistil and stamens.*

Each team will need a flower specimen that is cut longways through the pistil.

(Biologists call this a 'longitudinal section'.)

When you have at least one sample of a whole and cut flower per team, observe it closely.
