Introduction to Marine Cargo Management Mark Rowbotham, 2014-03-21. Cargo management especially in the maritime sphere plays a vital role in the transfer of goods between seller and buyer. However, despite over 90% of the world's international trade being conducted by sea, often very little is known about this subject by either party. This unique text provides a clear and comprehensive introduction to the principal elements involved in the management of marine cargo and the carriage of goods by sea. Not only does it analyse key theories and debates in the maritime freight sector, it is equally instructive on practice and logistics. Furthermore, the book provides a thorough guide to the roles and responsibilities of all parties involved in this dynamic industry. This second edition has been fully revised and updated to incorporate the very latest changes in cargo management legislation and procedures, including Offshore oil gas supply management, The revised INCOTERMS 2010, Tramp shipping and spot cargo trading, Project cargo management, Dry and liquid bulk cargo management, The IMDG Code and the marine carriage of dangerous and hazardous goods, Cabotage, Salvage, Risk management and best practice. This is an essential guide for shipping professionals, academics and students of marine logistics and international trade.

The ISM Code: A Practical Guide to the Legal and Insurance Implications Phil Anderson, 2015-06-16. The ISM Code has been mandatory for almost every commercial vessel in the world for more than a decade and nearly two decades for high risk vessels, yet there is very little case law in this area. Consequently, there remains a great deal of confusion about the potential legal and insurance implications of the Code. This third edition represents a major re-write and addresses significant amendments that were made to the ISM Code on 1st July 2010 and 1st January 2015. This book provides practitioners with a practical overview of and much needed guidance on the potential implications of failing to implement the requirements of the Code. It will be hugely valuable to DPAs, managers of ship operating companies, ship masters, maritime lawyers and insurance claims staff.
