Fancher,2015 The concept for Studio Anywhere came from photographer Nick Fancher s experience trying to build model shots for his portfolio As a young professional photographer with a family he didn t have the money to rent out a studio and he wasn t familiar with all the areas around some of his models locations when he was traveling for example So he started shooting in the models living spaces Each place was different a penthouse here a dark art space there and they all forced him to think a bit outside the box and seek out photographic opportunities He also had to carry little gear traveling light All this gave him the idea for this book which highlights what one can do with a bit of portable gear a grasp of photographic basics and a lot of imagination in order to see the possibilities in any given situation In Studio Anywhere A Photographer s Guide to Shooting in Unconventional Locations Nick will cover different studios that can be created anywhere from a basement to a street from an office to a park from a living room to a backyard And he will do all this with just the following gear 1 3 Speedlites a foam core board a grid for the flash an umbrella an ND filter and gaffer tape And because his photos have a unique look to them Nick will also include his post processing in Lightroom with occasional pro tips as he jumps over to Photoshop for just a bit of heavier lifting in the digital darkroom Nick will also have a Deconstruct this photo thread running throughout the book one for each studio section which will help students be able to better read photos how many lights were used what kind of modifier was used where was the light placed in order to reverse engineer them so that they can recreate similar lighting scenarios themselves After reading Studio Anywhere students will be inspired to get out and shoot in more unconventional locations and will be equipped with the knowledge and know how to do so **Tony Northrup's DSLR**

The Art of Selling Portrait

Photography ,2017-04-17 Photographers who provide digital files instead of professionally finished prints and albums are not just missing out on income they are limiting the ways they can serve their clients and giving up control of the quality of the finished product This has a ripple effects that can negatively affect the long term viability of the business As Christie Mumm shows in this book failing to sell prints and albums and to do so effectively results in clients who save a few dollars but are overall less satisfied with the quality of the experience they received Conversely clients who are treated to a great in person sales session and then receive high end custom products almost always become repeat customers and are far more likely to talk to their friends and family about their experience Armed with the practical no nonsense techniques Mumm sets out photographers will find it easy to develop a product line and begin hosting fun engaging in person sales sessions
