Paul Samuelson on the History of Economic Analysis Paul Anthony Samuelson, 2015 This collection of writings by Paul Samuelson illustrates the depth and breadth of his contribution to the history of economics International Perspectives on the Role of Technology in Humanizing Higher Education Enakshi Sengupta, Patrick Blessinger, Mandla Makhanya, 2020-11-12 By highlighting the use of emerging technologies in pedagogy and drawing on real life case studies the authors in this volume address the ongoing debate that technology brings a positive effect on education and beyond They demonstrate how technology continues to fulfil the challenges of creating a more democratic educational environment *The Material Culture and Social Institutions of the Simpler Peoples (Routledge Revivals)* L. T. Hobhouse, G. C. Wheeler, M Ginsberg, 2013-06-17 Originally published in 1915 this pioneer study has long occupied an important place in the literature of sociology An exercise in the statistical correlation of the economic and social institutions of the working classes of the early twentieth century the book is an important link between contemporary sociology with a focus on the problems of social development and the classical social liberalism on which L T Hobhouse left his mark The reissue includes the introduction written by Morris Ginsberg in the 1965 reprint where he explains what he and his colleagues set out to achieve and responds to the criticism faced by the study This is a classic work which is still of great value to sociologists and anthropologists today

The Economic Sociology of Immigration Alejandro Portes, 1995-06-22 Portes suggests that immigration constitutes an especially appropriate Mertonian strategic research site for economic sociology in that it provides very good opportunities for investigating the embeddedness of economic relationships in social situations the contributors expand the conventional domain of economic sociology quite literally in both time and space Contemporary Sociology Alejandro Portes and his splendid band of collaborators make clear that the causes processes and consequences of migration vary dramatically from group to group that a group's history makes a profound difference to its fate in the American economy They have produced a sinewy book a book worth arguing with Charles Tilly Columbia University The Economic Sociology of Immigration forges a dynamic link between the theoretical innovations of economic sociology with the latest empirical findings from immigration research an area of critical concern as the problems of ethnic poverty and inequality become increasingly profound Alejandro Portes lucid overview of sociological approaches to economic phenomena provides the framework for six thoughtful wide ranging investigations into ethnic and immigrant labor networks and social resources entrepreneurship and cultural assimilation Mark Granovetter illustrates how small businesses built on the bonds of ethnicity and kinship can under certain conditions flourish remarkably well Bryan R Roberts demonstrates how immigrant groups expectations of the duration of their stay influence their propensity toward entrepreneurship Ivan Light and Carolyn Rosenstein chart how specific metropolitan environments have stimulated or impeded entrepreneurial ventures in five ethnic populations Saskia Sassen provides a revealing analysis of the unexpectedly flexible and vital labor market networks maintained between immigrants

and their native countries while M Patricia Fernandez Kelly looks specifically at the black inner city to examine how insular cultural values hinder the acquisition of skills and jobs outside the neighborhood Alejandro Portes also depicts the difference between the attitudes of American born youths and those of recent immigrants and its effect on the economic success of immigrant children
