Encyclopedia of Food and Color Additives George A. Burdock, 1997. A 3-volume reference set you'll use every day. Suppose you are the regulatory affairs manager for a food company and your boss calls about beet red, a coloring agent touted by a salesman as natural. Your boss needs to know if this claim is true. How do you find out? Perhaps you are an attorney for a company manufacturing ethnic marinade mixes, and a customer charges that the chemical cinnamaldehyde, which the mixes contain, is being tested for carcinogenicity by the National Toxicology Program. Is your company manufacturing food that is potentially toxic? With the Encyclopedia of Food and Color Additives, the answers are at your fingertips. You quickly look up Beet Red and find it is indeed natural, a product of edible beets. You are able to assure your boss that the claim is valid. After consulting the Encyclopedia, you calmly inform the customer that cinnamaldehyde is not only approved for use in food, but it is a primary constituent of cinnamon, a common household spice. The Encyclopedia provides you with a quick, understandable description of what each additive is and what it does, where it comes from, when its use might be limited, and how it is manufactured and used. Cook Color Maria Zizka, 2023-05-16

Eat the rainbow. Cook Color celebrates the beauty of fresh fruits, vegetables, herbs, and spices in a collection of 100 all-natural monochrome recipes that reveal a tantalizing world of taste, texture, and seasonal eating like you've never seen before. What is the flavor of sunshine? The taste of forest green? Does the red of a pepper evoke the warmth of its spice? Cook Color reveals a whole new way of thinking about food. Author Maria Zizka introduces readers to ideas from color theory and cooking sciences, explaining how to master food styling and cooking techniques to enhance and preserve color without any artificial additives. But cooking by color isn't just about looks; it is an approach that draws connections between aesthetics, seasonality, and flavor. Arranged in a gradient, the recipes begin with creamy shades of white from a coconut cod and rice bowl to a garlicky bean and cauliflower salad. Yellows evoke the bright flavors in Margarita Bars; reds bring forward fiery tastes in dishes like Mapo Rag with Rice Cakes; and greens highlight fresh and herbal flavors with dishes like Matcha and Mint Ice Cream Sundae or Zhoug Marinated Feta and Fava Toasts. Blues, purples, and blacks present revelations: a butterfly pea flower boza stuffed with blue oyster mushroom, a classic Italian grape focaccia turned on its head with the addition of purple ube, and elegant black tahini cookies. To tie it all together, Zizka presents a special section of Color Menus where she teaches readers how to use food to create palettes that evoke a sense of season, theme, or even a place. A Valentine's menu decorated with red and pink indulgences, a spring menu featuring all fresh flavors and pastel tones, a seafood-focused menu of blue and coral hues to conjure a tropical ocean vibe. Cook Color is a celebration of eating beautifully and creatively at any moment and for any occasion.
