Neal,Lisa R. Gaddis,Bradley L. Jolliff,Samuel J. Lawrence,Stephen J. Mackwell,Charles K. Shearer,Sarah N. Valencia,2024-05-06 Much has happened in the world in the 17 years since the first New Views of the Moon was published as volume 60 of the Mineralogical Society of America in 2006 An exciting new era of lunar exploration has begun including the promise of resuming human lunar exploration exploring the lunar Poles and missions to many other high priority science targets It is fitting therefore to now summarize the current state of knowledge to the degree possible at a time when advancements in knowledge of the Moon are proceeding at a breakneck pace Therefore during this period of unprecedented lunar exploration activity and as we continue to rebound from a global pandemic we now happily announce this New Views of the Moon 2 volume summarizing the advances in lunar science and exploration since 2006 The Steering Committee is eternally grateful to all contributors and especially the chapter leads and to Professor Makiko Ohtake University of Aizu Japan and Dr David Blewett Johns Hopkins University Applied Physics Laboratory U S A for organizing the New Views of the Moon 2 Electronic Annex We deeply appreciate the hard work and dedication of everyone involved in the production of this volume especially Rachel Russell and Ian Swainson at the Mineralogical Society of America This volume helps to frame our knowledge and expectations for an exciting future of lunar science and exploration and the new discoveries to be made Having humans return to the Moon now seems more likely than it ever has since the last humans left the Moon on 14 December 1972 *BBC Commercial Operations* Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee,2009 This report investigates the governance of the BBC s commercial arm BBC Worldwide the activities of BBC Worldwide including programme sales production magazines and websites BBC Worldwide s acquisition of Lonely Planet and the possible partnership between BBC Worldwide and Channel 4 There are major benefits from the BBC undertaking commercial activities the profits generated by the exploitation of the BBC s intellectual property can be reinvested in the BBC s public services to the benefit of licence fee payers But the manner in which some of the BBC s commercial revenue is generated and the governance arrangements within which the BBC Worldwide operates causes increasing concern Worldwide has proved successful in recent years in exploiting new commercial opportunities made possible by a loosening of the rules that govern the limits to its operations However there a balance to be drawn between Worldwide generating a return for the BBC and limiting Worldwide s operations in order to ensure it upholds the BBC s reputation and does not damage its commercial competitors Worldwide s minority stakes in overseas production companies its controversial acquisition of Lonely Planet and its growing portfolio of magazines suggest that the balance has been tipped too far in favour of Worldwide s unrestricted expansion jeopardising the reputation of the BBC and having an adverse impact on its

commercial competitors It is in the interests of the UK's creative economy as a whole that BBC Worldwide's activities are reined back The BBC Trust should reinstate the rule that all BBC commercial activity must have a clear link with core BBC programming
