Advances in the Potential Treatments of Gastrointestinal and Liver Diseases: Addressing the Public Health Burden Mariana Jinga,Adina Turcu-Stiolica,Maria Dimitrova,2023-08-07 The Kishinev Ghetto,

1941-1942 Paul A. Shapiro,2015-09-15 The Kishinev Ghetto 1941 1942 sheds new light on the little known historical events surrounding the creation administration and liquidation of the Kishinev Chisinau ghetto during the first months following the Axis attack on the Soviet Union Operation Barbarossa in late June 1941 Mass killings during the combined Romanian German drive toward Kishinev in Bessarabia after a year of Soviet rule in this Romanian border province were followed by the shooting of thousands of Jews on the streets of the city during the first days of reestablished Romanian administration Survivors were driven into a ghetto persecuted and liquidated by year s end The Kishinev Ghetto 1941 1942 is the first major study of these events Often overshadowed by events in Germany and Poland the history of the Holocaust in Romania including what took place in Bessarabia corresponding in large part with the territory of the modern Republic of Moldova was obscured during decades of communist rule denial and policies that blocked access to wartime documentation This book is the result of a lengthy research project that began with Paul A Shapiro s travels to Romania for the United States Holocaust Memorial Museum to negotiate access to these documents EU Funds in the New Member States Christian

Hagemann,2018-12-07 This book examines new member states problems with the absorption of EU funds Since accession many new member states from Central and Eastern Europe struggle to access their billions of development funds from Brussels While existing research mostly emphasizes the role of states administrative capacities to account for absorption problems this study adds the so far neglected role of politics as party politicization to the equation The argument is tested using a combination of fuzzy set Qualitative Comparative Analysis fsQCA with two detailed process tracing case studies This book will appeal to scholars interested in EU cohesion policy post accession compliance and post communist politics *The Constitution and 9/11* Louis Fisher,2008 The Constitution and 9 11 provides a comprehensive striking and disturbing analysis of executive misuse of power that is made all the more compelling by placing it in a rich and fascinating historical contest No better book is available for placing post 9 11 government actions in the matrix of history and explaining how executive power has degraded the Constitution and citizen rights William G Weaver Back cover *Disaster Response by Ceaușescu's Communist Regime in Romania* Karin Steinbrueck,2024-10-21 This book contains the first comprehensive history using extensive primary sources to trace the 1977 earthquake disaster response by the Ceau escu communist regime

contextualizing its contribution to the public risk that remains in Romania's capital Bucharest. It traces a history of one authoritarian government's disaster response linking its decisions and ultimate inactions to contemporary public risk. The book begins with a stand-alone chapter to introduce readers to twentieth-century Communist Romania and contextualize the Ceaușescu regime's response. It provides insights into how Radio Free Europe filled the information vacuum, how the political police, the Securitate, worked as first responders and how scientific experts debated the best course of action. It examines how the regime requested specific foreign assistance and activated its Securitate abroad to encourage such prioritized restoration of the economy and encouraged domestic cash and labor contributions in the name of recovery. The book examines how the disaster response abruptly ended, leaving thousands of structurally unsafe buildings. It explains the contemporary seismic risk and post-communist mitigation efforts to reduce it. This book will be of interest to students, researchers, and policy makers in the fields of history, disaster studies, urban planning, politics, and those interested in communist-era Romania, Europe, and Eurasia totalitarian and authoritarian regimes.

National Constitutions in European and Global Governance: Democracy, Rights, the Rule of Law Anneli Albi, Samo Bardutzky, 2019-05-29. This two-volume book, published open access, brings together leading scholars of constitutional law from twenty-nine European countries to revisit the role of national constitutions at a time when decision-making has increasingly shifted to the European and transnational level. It offers important insights into three areas. First, it explores how constitutions reflect the transfer of powers from domestic to European and global institutions. Secondly, it revisits substantive constitutional values such as the protection of constitutional rights, the rule of law, democratic participation, and constitutional review, along with constitutional court judgments that tackle the protection of these rights and values in the transnational context, e.g., with regard to the Data Retention Directive, the European Arrest Warrant, the ESM Treaty, and EU and IMF austerity measures. The responsiveness of the ECJ regarding the above rights and values, along with the standard of protection, is also assessed. Thirdly, challenges in the context of global governance in relation to judicial review, democratic control, and accountability are examined. On a broader level, the contributors were also invited to reflect on what has increasingly been described as the erosion or twilight of constitutionalism or a shift to a thin version of the rule of law, democracy, and judicial review in the context of Europeanisation and globalisation processes. The national reports are complemented by a separately published comparative study which identifies a number of broader trends and challenges that are shared across several Member States and warrant wider discussion. The research for this publication and the comparative study were carried out within the framework of the ERC-funded project 'The Role and Future of National Constitutions in European and Global Governance'. The book is aimed at scholars, researchers, judges, and legal advisors working on the interface between national constitutional law and EU and transnational law. The extradition cases are also of interest to scholars and practitioners in the field of criminal law. Anneli Albi is Professor of European Law at the University of Kent, United Kingdom. Samo Bardutzky is Assistant Professor of Constitutional Law at the University of Ljubljana, Slovenia.

Entangled Evolutions Peter Gross, 2002-05-08 The revolutions of 1989 swept away Eastern Europe's communist governments and created expectations on the part of many observers that post communist media would lead the liberated societies in establishing and embracing democratic political cultures Peter Gross finds that it was utopian to hold such expectations of the media in societies in transition On the one hand those countries media professionals had all learned their jobs under the communist regimes and could not instantly transform themselves into guides for a politically enabled populace Gross argues On the other hand newcomers to the media world even those who were notable literary figures viewed themselves as social and political leaders rather than mere informers and facilitators of the resocialization required to form new democracies The news media have remained highly politicized and partisan So how are the media civil society and political culture related in societies in transition And can changes in these relationships be anticipated To address these questions *Entangled Evolutions* examines media in post 1989 Eastern Europe It studies the effects of privatization of the media journalists relations to political figures institutional structures such as media laws professional journalistic culture and the media's relation to their market Sources include interviews with journalists and politicians sociological and political data from national surveys and media audience studies

Romania In The 1980s Daniel N. Nelson, 2019-06-04 Among communist states Romania is in several respects a unique case Romania has been the only Warsaw Pact member to deviate consistently from Soviet foreign policy norms and alone within Eastern Europe to avoid oil imports from the USSR The leadership of Nicolae Ceausescu since 1965 has meanwhile governed through a studious commitment to socio economic centralization and control often reminiscent of Stalinist orthodoxy Intellectual freedom artistic liberty and workers rights have changed little relative to Poland Hungary or the transient Prague Spring Such international and domestic policy distinctions as well as a record of impressive industrial growth necessitate an effort to understand the dynamics of Romania's socio economic and political life This volume is meant to delineate trends in political social and economic life which will constitute dynamic elements for the Romanian system during the 1980s and beyond Contributors all scholars with lengthy research experience in Romania the Balkans and communist states generally have sought to identify factors likely to be influential during this and ensuing decades In that sense this is a predictive volume containing not crystal ball gazing but the careful identification and assessment of trends influencing Romanian foreign and domestic policies economic and political performance and societal transformations By suggesting elements crucial to socio economic and political change in Romania we hope to make observing this intriguing communist state somewhat less haphazard and more systematic
