Rucker, James N. Upton, 2006-11-30 Race riots are the most glaring and contemporary displays of the racial strife running through America's history. Mostly urban, mostly outside the South and mostly white instigated, the number and violence of race riots increased as blacks migrated out of the rural South and into the North and West's industrialized cities during the early part of the twentieth century. Though white-on-black violence has been the most common form of racial violence, riots involving Asians and Hispanics are also included and examined. Race riots are the most glaring and contemporary displays of the racial strife running through America's history. Mostly urban, mostly outside the South and mostly white instigated, the number and violence of race riots increased as blacks migrated out of the rural South and into the North and West's industrialized cities during the early part of the twentieth century. While most riots have occurred within the past century, the encyclopedia reaches back to colonial history, giving the encyclopedia an unprecedented historical depth. Though white-on-black violence has been the most common form of racial violence, riots involving other racial and ethnic groups such as Asians and Hispanics are also included and examined. Organized A-Z topics include notorious riots like the Tulsa Riots of 1921, the Los Angeles Riots of 1965 and 1992, the African American community's preparedness and responses to this odious form of mass violence, federal responses to rioting, an examination of the underlying causes of rioting, the reactions of prominent figures such as H. Rap Brown and Martin Luther King Jr. to rioting, and much more. Many of the entries describe and analyze particular riots and violent racial incidents, including the following: Belleville, Illinois Riot of 1903; Harlem New York Riot of 1943; Howard Beach Incident, 1986; Jackson State University Incident, 1970; Los Angeles, California Riot of 1992; Memphis, Tennessee Riot of 1966; Red Summer Race Riots of 1919; Southwest Missouri Riots, 1894-1906; Texas Southern University Riot of 1967. Entries covering the victims and opponents of race violence include the following: Black Soldiers; Lynching of Black Women; Lynching of Diallo Amadou Hawkins; Yusef King; Rodney Randolph; A. Philip Roosevelt; Eleanor Till; Emmett; Lynching of Turner Mary; Lynching of Wells Barnett; Ida B. Many entries also cover legislation that has addressed racial violence and inequality, as well as groups and organizations that have either fought or promoted racial violence, including the following: Anti-Lynching League; Civil Rights Act of 1957; Economic Opportunity Act of 1964; Ku Klux Klan; National Association for the Advancement of Colored People; NAACP; Nation of Islam; Vigilante Organizations; White League. Other entries focus on relevant concepts, trends, themes, and publications. Besides almost 300 cross-referenced entries, most of which conclude with lists of additional readings, the encyclopedia also offers a timeline of racial violence in the United States, an extensive bibliography of print and electronic resources, a selection of important primary documents, numerous illustrations, and a detailed subject index. [Public/Community Health and Nursing Practice](#) Christine L. Savage, 2019-09-20. This unique problem-solving, case-based approach shows you how you'll encounter different case studies in every chapter that explore concepts such as community assessments, public health policy, and surveillance. Step by step, you'll develop the knowledge and skills you need to apply public health principles across a variety of health care settings, special populations.

and scenarios Social Policy for Effective Practice Rosemary Kennedy Chapin, Melinda Lewis, 2020-03-24 The fifth edition of *Social Policy for Effective Practice* offers a rich variety of resources and knowledge foundations to help social work students understand and contend with the continually evolving social policy landscape that surrounds them. The authors have continued their values-based approach and kept the focus on clients' strengths to help students position themselves for effective engagement on new fronts where policy threats and outcomes affect clients' lives in myriad ways. The new edition comprehensively covers the process of defining need, analyzing social policy, and developing policy, and each chapter builds on the practical knowledge and skills forged from previous ones. New to this edition: Thorough examination of new policies including challenges to the Affordable Care Act, voting rights, immigration, women's rights, and LGBTQ rights, as well as situations involving substance use, mental health, and economic inequality. Expanded coverage of shifting demographics including population diversity and aging. Increased connections drawn between historical, present, and potential future policy contexts. Updated exercises, exhibits, and social media links in text, and an entire suite of web-based tools found through www.routledgesw.com, including complementary reading suggestions and teaching tips, a full library of lecture slides and exam questions, and EPAS guidelines. For use as a resource in foundations/generalist social policy courses either at the baccalaureate or master's levels, the new edition of *Social Policy for Effective Practice* will challenge students to find areas of policy practice that spark their passion and prepare them to think about and use policy practice as a tool that can lead to the changes they care about.
