

# POTHOS

## Basic Care Guide

Easily propagated  
from stem cuttings

You can keep it in  
water although it will  
grow more slowly

Likes to have its  
soil dry out  
completely  
between waterings

Prefers bright  
places but  
with indirect  
light

Doesn't thrive  
in cold  
temperatures

It is very  
resistant and  
low-care

Pothos plants like high  
humidity, so they are ideal  
for placing in humid places  
in the house such as the  
bathroom or kitchen

If you want to plant them  
in soil, try to keep the soil  
very moist for the first few  
weeks in the pot so that it  
adapts better
