Stellar Lessons with Digital Tools prepares teachers in training and in service teachers to use technologies for design and development activities with middle and high school students While software open resources handheld devices and other tools hold great potential to enhance learning experiences teachers themselves must model technology use in ways that inspire students to become producers and leaders rather than consumers and followers Featuring concrete applications in social studies English mathematics and science scenarios this book provides pre service and in service teachers with seven paths to creatively integrate and innovate with computational thinking datasets maker spaces visual design media editing and other approaches

**Voicing Code in STEM** Pratim Sengupta,Amanda Dickes,Amy Voss Farris,2021-03-09 An exploration of coding that investigates the interplay between computational abstractions and the fundamentally interpretive nature of human experience The importance of coding in K 12 classrooms has been taken up by both scholars and educators Voicing Code in STEM offers a new way to think about coding in the classroom one that goes beyond device level engagement to consider the interplay between computational abstractions and the fundamentally interpretive nature of human experience Building on Mikhail Bakhtin s notions of heterogeneity and heteroglossia the authors explain how STEM coding can be understood as voicing computational utterances rather than a technocentric framing of building computational artifacts Empirical chapters illustrate this theoretical stance by investigating different framings of coding as voicing

*Teaching and Learning Online* Franklin S. Allaire,Jennifer E. Killham,2023-01-01 Science is unique among the disciplines since it is inherently hands on However the hands on nature of science instruction also makes it uniquely challenging when teaching in virtual environments How do we as science teachers deliver high quality experiences to secondary students in an online environment that leads to age grade level appropriate science content knowledge and literacy but also collaborative experiences in the inquiry process and the nature of science The expansion of online environments for education poses logistical and pedagogical challenges for early childhood and elementary science teachers and early learners Despite digital media becoming more available and ubiquitous and increases in online spaces for teaching and learning Killham et al 2014 Wong et al 2018 PreK 12 teachers consistently report feeling underprepared or overwhelmed by online learning environments Molnar et al 2021 Seaman et al 2018 This is coupled with persistent challenges related to elementary teachers lack of confidence and low science teaching self efficacy Brigido Borrachero Bermejo Gunning Duran Duran 2004 Ideal for undergraduate teacher candidates graduate students teacher educators classroom teachers parents and administrators this book addresses why and how teachers use online environments to teach science content and work with elementary students through a research based foundation
