delicious ways you can use honey every day **Made from Scratch** Jean Zimmerman, 2012-11-13 A stunning celebration and reappraisal of the importance of women's work *Made from Scratch* addresses the tug that many Americans feel between our professional and private lives In this stunning celebration and reappraisal of the importance of women's work acclaimed journalist Jean Zimmerman poignantly addresses the tug that many Americans of the twenty first century feel between our professional and private lives With sharp wit and intelligence she offers evidence that in the current domestic vacuum we still long for a richer home life a paradox visible in the Martha Stewart phenomenon in the continuing popularity of women's service magazines such as *Better Homes and Gardens* *Family Circle* and *Ladies Home Journal* whose combined circulation of over 17 million is nearly twice the combined circulation of *Time* *Newsweek* and *U S News World Report* and the booming business of restorations where onlookers get a hands on view of domestic life as it flourished in past centuries This book is about the ways home traditions passed from one generation to the next baking a birthday cake from scratch cherishing family heirlooms or discovering the satisfaction of piecing a quilt sustain our souls especially in our ever more processed synthetic world where we buy homemade goods and fail to see the irony in that *Made from Scratch* tells the story of the unsung heroines of the hearth investigating the history of female domesticity and charting its cultural changes over centuries Zimmerman traces the lives of her own family's homemakers from her tiny but indomitable grandmother who managed a farm strangled chickens with her bare hands and sewed all the family clothing to her mother who rejected her country upbringing yet kept a fastidious suburban home where the gender divide stayed firmly in place to her own experiences as a wife and mother weaned on the Women's Movement of the 1970s with its emphatic view that housework was a dirty word and that the domestic sphere was to be fled rather than cherished In this book Zimmerman questions the unexamined trade off we have made in a shockingly brief time span as we've progressed from home raised chickens to frozen TV dinners to McNuggets from the food court at the mall What is lost when we no longer engage as individuals and as a community in the ancient rituals of food craft and shelter Wheat Belly Cookbook William Davis, 2012-12-24 Serves up one hundred fifty recipes that follow the author's proven plan for losing weight and beating disease by avoiding the consumption of wheat products *McCall's*, 1998 **Toxic Living** Michael J. Sclafani RN MS M.Ed, 2020-01-03 If not for ourselves then for the future health of our children This book provides a bold overview of how the air we breathe the water we drink and the food we eat are damaging our health in a very gradual and persistent manner Environmental toxins are all pervasive in our surroundings and are most likely related to the escalation of chronic diseases A listing of actual environmental toxins is focused upon as well as how these toxins gradually alter over time our physiology resulting in a serious threat to human health Documentation of toxic contamination is provided utilizing information published by federal agencies as well as scientific research investigative reports newspaper articles and recent EPA and toxic tort litigation efforts The book is self help in nature and focuses on actions individuals can take to protect their children as well as themselves from the
