Pye, 1992 Lucian Pye one of the most knowledgeable observers of China unfolds in this book a deep psychological analysis of Chinese political culture The dynamics of the Cultural Revolution the behavior of the Red Guards and the compulsions of Mao Tse tung are among the important symptoms examined But Pye goes behind large events exploring the more enduring aspects of Chinese culture and the stable elements of the national psychology as they have been manifested in traditional Republican and Communist periods He also scans several possible paths of future development The emphasis is on the roles long played by authority order hierarchy and emotional quietism in Chinese political culture as shaped by the Confucian tradition and the institution of filial piety and the resulting confusions brought about by the displacements of these traditions in the face of political change and modernization In this new edition Pye adds a chapter on the basic tension between consensus and conflict in the operation of Chinese politics illustrating the spirit in action and another discussing the great gap that persists between the worlds of the political leadership and of society at large in post Tiananmen China

11 Days in December Stanley Weintraub, 2006 It was truly a white Christmas in the forests of the Ardennes in 1944 but that was cold comfort to the Allied soldiers trying to stop the Nazis from retaking Belgium in one of the most decisive battles of World War II While a German loudspeaker taunted How would you like to die for Christmas the Allied forces dug in despite freezing conditions In a medieval chapel General George S Patton who needed fair weather for airborne troop support to arrive

uttered what would become a famous prayer Sir You have just got to make up Your mind whose side You re on His soldiers wouldn t be home for the holidays but as the skies cleared they went on to win a battle and a war In the tradition of his Silent Night The Story of the World War I Christmas Truce acclaimed author Stanley Weintraub explores the irony and poignancy of waging war during a season dedicated to peace on Earth Book jacket *Twentieth Century Russia* Donald

Treadgold,2018-05-04 Donald Treadgold was one of the most distinguished Russian historians of his generation His *Twentieth Century Russia* a standard text in colleges and universities for several decades has been regularly revised and expanded to reflect new events and scholarship The present revision by Professor Herbert Ellison contains a major chapter on the Yeltsin era and brings the Russian story to the final year of the century Twice in the twentieth century the collapse of the Russian state and empire has been followed by an effort to build a democracy on the Western model The first effort succumbed within a few months to Lenin s communist revolution whose ideas and institutions dominated the history of Russia and eventually much of the world during the succeeding seventy four years In August 1991 an attempt by Soviet leaders to suppress democratic and nationalist movements unleashed by the Gorbachev reforms and already victorious in Eastern Europe precipitated instead an anti communist revolution under the leadership of Boris Yeltsin The revolution and the sweeping transformation that followed are treated in the new edition which assesses the aims and scope of the first decade of Russia s second revolution The transformation included a new constitutional structure two fully democratic parliamentary elections and a presidential election with another of each soon to come a vigorous revival of political parties and political debate and major questions about Russia s political future Against the broad background of the Russian experience over a turbulent century it raises the major questions What are the prospects for Russian democracy Why are the communists following an anti communist revolution the most powerful parliamentary party in Russia s new parliament and what is their impact Why has the conversion to a market economy proved so difficult and painful and what are its prospects How has Russia related to the new states that were once fellow republics of the USSR Why has the foreign policy of the new Russian democracy moved from a vision of partnership with the US to a reality of conflict and confrontation *Twentieth Century Russia* poses these questions and many more for the student and the general reader alike against the fascinating background of Russia s experience before during and since the era of communist rule exploring the roots of current developments in the communist and pre communist past **Communist China: a Bibliographic Survey** Army Library (U.S.),1971 Revolutionary

States, Leaders, and Foreign Relations Houman A. Sadri,1997-04-16 This book compares and contrasts the foreign relations strategies of China Cuba and Iran in the first decade of their post revolutionary periods Among a variety of explanatory variables leadership particularly the type of revolutionary leaders played a significant role in explaining the outcome of the policymaking process in each case Three distinct patterns of foreign relations strategies are evident among all three revolutionary regimes in the ten year period Two Track Conflictual and Conciliatory This book is a valuable source for both

experts and non experts alike in providing insight into the foreign relations of revolutionary regimes in developing countries and in helping U S policymakers anticipate behaviors of future revolutionary leaders A focal point of this book is the examination of the nonalignment strategies of these prominent developing countries during the infancy of their regimes Each state s particular strategy is described and explained in detail and then contrasted and compared Although there are differences among their foreign policies considering their geographic locations size wealth military capabilities leadership characteristics and political institutions there are significant similarities regarding their foreign policy goals and trends in their foreign relations with the Great Powers Among explanatory factors leadership played a significant role in the policy making process although the foreign relations strategies of these revolutionary regimes were fed by a combination of national and international variables In all three states the tone of foreign policy was set by revolutionary leaders who were either idealists or realists Idealists tended to take a more active and conflictual approach toward one or both of the superpowers while Realists were more cautious and less willing to resort to a conflictual posture This book also investigates the gap between the theoretical and practical nonalignment stance of each state This cross regional study provides policy analysts with clues about the foreign policies of other revolutionary developing countries in similar situations Finally it makes suggestions about how a Great Power may relate to a developing country during its first post revolution decade **Air**
