Contemporary Language Motivation Theory Ali H. Al-Hoorie, Peter D. MacIntyre, 2019-11-18. This book brings together contributions from the leaders of the language learning motivation field. The varied chapters demonstrate how Gardner's work remains integral to a diverse range of contemporary theoretical issues underlying the psychology of language even today, 60 years after the publication of Gardner and Lambert's seminal 1959 paper. The chapters cover a wide selection of topics related to applied linguistics, second language acquisition, social psychology, sociology, methodology, and historical issues. The book advances thinking on cutting edge topics in these diverse areas, providing a wealth of information for both students and established scholars that show the continuing and future importance of Gardner and Lambert's ideas. **Role Model Blacks** Carroll L. Miller, 1982. *Translated Poe* Emron Esplin, Margarida Vale de Gato, 2014-10-23. Few if any U.S. writers are as important to the history of world literature as Edgar Allan Poe, and few if any U.S. authors owe so much of their current reputations to the process of translation. *Translated Poe* brings together 31 essays from 19 different national literary traditions to demonstrate Poe's extensive influence on world literature and thought while revealing the importance of the vehicle that delivers Poe to the world: translation. *Translated Poe* is not preoccupied with judging the quality of any given Poe translation, nor with assessing what a specific translation of Poe must or should have done. Rather, the volume demonstrates

how Poe's translations constitute multiple contextual interpretations testifying to how this prolific author continues to help us read ourselves and the world's we live in. The examples of how Poe's works were spread abroad remind us that literature depends as much on authorial creation and timely readership as on the languages and worlds through which a piece of literature circulates after its initial publication in its first language. This recasting of signs and symbols that intervene in other cultures when a text is translated is one of the principal subjects of the humanistic discipline of Translation Studies dealing with the products, functions and processes of translation as both a cognitive and socially regulated activity. Both literary history and the history of translation benefit from this book's focus on Poe whose translated fortune has helped to shape literary modernity in many cases, importantly redefining the target literary systems. Furthermore, we envision this book as a fountain of resources for future Poe scholars from various global sites including the United States, since the cases of Poe's translations both exceptional and paradigmatic prove that they are also levers that force the reassessment of the source text in its native literature.

Is There a Home in Cyberspace? Heike Mónica Greschke, 2012-08-21. How is global togetherness possible? How does the availability of the Internet alter migrants' everyday lives and senses of belonging? This book introduces an alien people inhabiting a specific common virtual space in the World Wide Web while the members of this space, most of them ethnic Paraguayans, are physically located in many different parts of the world. By developing an innovative and uniquely adequate set of research methods, the author explores the interrelation of media and migration practices in their own right and sheds light not only on the living conditions of contemporary Paraguayan migrants but also on emerging global forms of living together. The concentration on a single case facilitates an in-depth understanding of contemporary migration practices, cultural meanings of digital media and senses of belonging. The book discusses empirical data, methods and theoretical concepts in a reflexive writing style, allowing readers to follow the research process and to learn from its choices and challenges which are rarely visible in most research reports. The reflexive research procedure contributes not only to the understanding of social realities in the light of globalization but also to an advancement of sociological methods and concepts for researching social phenomena in global landscapes and mediatization.

The Clinton Global Initiative. A Role Model for 21st Century Diplomacy? Sven Marschalek, 2020-04-06. Bachelor Thesis from the year 2013 in the subject Politics. Topic: International relations, grade 1.0. Sheffield Hallam University, Faculty of Development and Society, language: English. Abstract: This paper has taken the discourse on changes in global diplomacy as a foundation for an in-depth case study of the Clinton Global Initiative, which appeared and proved to be an excellent example for the realization of recent trends in real politics. By applying a mixed methodology, the organizational structure and membership were investigated as to effectively be able to make statements about the initiative's approach towards the global issue of climate change. Via a consecutive comparison to the state-centric United Nations Framework Convention on Climate Change, strengths and weaknesses of the Clinton Global Initiative as an international organization could be identified and

recommendations could be given as to how modern diplomacy could be designed more effectively This research sets out to answer the following questions 1 How does the Clinton Global Initiative address contemporary global issues specifically climate change 2 What lessons can other international organizations such as the UN learn from the Clinton Global Initiative for the practice of diplomacy Recent trends such as the communications revolution and the increasing importance of transnational non state actors have led to increasing levels of global interdependence At the same time global public goods issues such as pollution poverty or health call for collective action at a worldwide scale Both trends are interrelated and have led academics to recognize a development towards a new diplomacy that is characterized by a growing involvement of public and private actors from civil society and the business world by flat hierarchies and inter sectoral partnerships by an increasing impact of individuals and by flexible and solution focused approaches There is no agreed position as to whether this new diplomacy is to be placed in opposition to more traditional state centric accounts of diplomacy or whether it rather adds to a polycentric world system
