consider our list of pioneers we know that there are names on the list that most of us readily recognize We also fully realize that there are names of whom few of us have heard yet who were significant in their roles as mentors or idea development and teaching We continue to be impressed with our science education family tree ever branching out to more individuals and connections The stories in this volume continue to demonstrate how vital this network was in supporting the individual pioneers during their journey in difficult times and continues to be for those of us today in our own enterprise SDEA Journal South Dakota Education Association,1928 Catalog of Copyright Entries.
