Cutler's Red Book of Priceless Recipes Harry Gardner Cutler, 1903

The Tree Dispensary Christina Stapley, 2021-04-19 The Tree Dispensary explores the history, folklore, and medicinal uses of native European trees, beautifully illustrated with the author's own photographs. The book presents a thorough and deep appreciation of trees as the author has experienced them through everyday life as a herb historian and practising herbalist. Categorised into seasons, each of the 30 tree chapters covers cultivation, cookery, foraging, crafts, history, botany, medicinal use, and mythology. Original herbals are used as source material for the historical section, allowing voices from the past to speak for themselves. A Herbalists Reference for each tree includes medicinal uses, dosage, and constituents, and reflects the author's own extensive experience of using these wonderful tree remedies. For years as a herbalist, I had been walking about looking down for what was growing around my feet. The emphasis changed to looking up, and I was delighted by the exquisite detail of tiny female flowers on trees which I simply could not believe I had missed before. I took photographs, pressed herbarium samples, harvested and studied, experimented with barks, catkins, and leaves to produce dyes. Never again will a tincture or dried herb of tree origin be simply a name on a label and a list of constituents, actions, and indications. I hope as you read this book, you will also feel a stronger connection and wish to explore plant and care for trees yourselves. Volume 2 of The Tree Dispensary, covering exotic trees, will be published in Autumn 2021.
