Corsi, 2024-08-13 In his new book The Anti Globalist Manifesto Ending the War on Humanity bestselling author Jerome Corsi puts out a call for action to reverse the totalitarian goals of the New World Order globalists Corsi addresses that these demons are well advanced in their planned One World Government takeover aimed at establishing an atheistic utopia that will have no respect for traditional human rights Comfortable that their transhuman aspirations are achievable the Malthusian elite is waging a war on humanity that embraces global depopulation as a means of preventing Earth s abundant natural resources for themselves Tracing this dystopian nightmare back to the assassination of President John F Kennedy on November 23 1963 as the day the deep state went rogue in a conspiracy involving the CIA the Pentagon the State Department and the Department of Justice to affect a coup d tat that would allow the military industrial complex to go to war in Vietnam the deep state has created an ongoing Truman Show a series of never ending psychological operations designed to induce citizens worldwide to surrender freedoms to government in return for security With the premise that the globalist elite uses systems of mass manipulation and social engineering to induce the world s population to accept the implementation of the reforms it has already decided to implement Corsi sets a detailed plan for organizing global resistance against the subversives who now sit at the top of the institutions or world government and finance The Anti Globalist Manifesto is a call to action to restore God to our lives as those of us fighting for a return to personal freedoms and limited government ending the war on humanity and driving once and for all time the New World Order globalists back to Hell where they belong

The Dark Side of Speech Carlo Penco, 2024-10-08 What is disinformation and why does it matter How can we understand and detect different kinds of disinformation With an analysis of relevant events of the period 2012 2022 the book attempts to answer these questions The book is organized into four parts 1 The first part presents the notions of post truth and fake news using some of the most recent critical studies analyzing some typical examples and the environment in which some of them originated 2 The second part introduces the notion of conspiracy theory and describes the emergence of the idea of white supremacy and its ramifications together with the narratives developed during the COVID restrictions 3 The third part describes the emergence of the algorithms behind social networks and their role in propaganda making examples of US and European elections and the Brexit referendum An analysis of Cambridge Analytica shows the tip of an iceberg of disinformation that is spreading around the world Some remarks by comedians and philosophers help to give a new view on the concept of freedom of speech with particular attention to the more and more difficult freedom of the press 4 The fourth part gives some emergency tools

for detecting disinformation at an individual level understanding the most hidden mechanisms of disinformation and the biases that almost unavoidably enter our minds These tools come from the results both of traditional theories and the most recent social philosophy of language not despising references to statistics This is a fundamental book for having a general survey of this period of political turmoil consulting a wide list of references and official documents and having a grasp of the means of intellectual self defense This book is non standard it relies on the most sophisticated theories of language and yet it gives everything in simple and colloquial language Differently from sophisticated analyses of linguistic phenomena it gives the feeling of participating in a tour around what happened in the last decade with a disenchanted eye that uses some results of the critical literature without compelling one to become a theoretician in the field of philosophy or critical analysis The hidden focus of the book is freedom of speech and freedom of thought and what they mean today in an era of more sophisticated and widespread disinformation permitted by the algorithms governing social networks

Because of the Angels T. Jeff O'Neal II, 2025-06-06 There is an awakening in America and across the world People are peeking behind the curtain and seeing the Military Industrial Complex is making us less safe and secure and conventional medicine and Big Pharma are making us less healthy all at very high cost The evil graft and corruption in government and large institutions are being revealed to those willing to see and acknowledge the proof that is presented to them But it seems nobody dares look behind the curtain of religion When Martin Luther first visited Rome he was shocked at the corruption and perversion of the Roman Catholic Church he witnessed so shocked that he started the Protestant Reformation But the dirty secret is that the deceit fraud graft and corruption in Christianity as well as other religions has gotten greater and more pervasive since the beginning of the Protestant Reformation Because of the Angels pulls back the curtain on Christian religion reveals the rampant adultery and idolatry and lays out the simple clear guidance in the Bible that will fulfill Jesus's requests in His High Priestly Prayer John 17

Conspiracy Theories and the People who Believe Them Joseph E. Uscinski,2019 Conspiracy theories are inevitable in complex human societies And while they have always been with us their ubiquity in our political discourse is nearly unprecedented Their salience has increased for a variety of reasons including the increasing access to information among

ordinary people a pervasive sense of powerlessness among those same people and a widespread distrust of elites Working in combination these factors and many other factors are now propelling conspiracy theories into our public sphere on a vast scale In recent years scholars have begun to study this genuinely important phenomenon in a concerted way In *Conspiracy Theories and the People Who Believe Them* Joseph E Uscinski has gathered forty top researchers on the topic to provide both the foundational tools and the evidence to better understand conspiracy theories in the United States and around the world Each chapter is informed by three core questions Why do so many people believe in conspiracy theories What are the effects of such theories when they take hold in the public What can or should be done about the phenomenon Combining systematic analysis and cutting edge empirical research this volume will help us better understand an extremely important yet relatively neglected phenomenon
