Evaluation of projects related to the Voluntary Guidelines on the Responsible Governance of Tenure of Land, Fisheries and Forests in the Context of National Food Security funded by Germany Food and Agriculture Organization of the United Nations,2021-06-04 FAO has been promoting the Voluntary Guidelines on the

Responsible Governance of Tenure of Land Fisheries and Forests VGGT in several countries and the Federal Republic of Germany had significantly contributed by financially supporting FAO's activities. The programme contributed through multi-stakeholder platforms to an inclusive dialogue which led in most countries to the emergence of a common vision on land governance and positively influenced the land reform processes. It also triggered changes in mind set which are needed for long-term improvements at country level. Results have shown that the VGGT while being international principles of land policy can be translated into concrete actions at the local level. The evaluation stressed the need for greater attention on developing activities to be carried out in local communities which result in defined precise and achievable gains on governance of tenure and to continue working on women and youth land access issues.
