Rspb Spotlight Puffins Euan Dunn:

RSPB Spotlight: Puffins Euan Dunn, 2016-07-28 Puffins is packed with eye catching informative colour photos and features succinct detailed text written by a knowledgeable expert Enduringly popular Puffins are perhaps our most iconic species of bird and are the most immediately identifiable of seabirds with their decorative bills and clown like gait Yet when they take to the air they wheel and turn with great agility and underwater these stocky little birds use short specially adapted wings to propel themselves through the water in pursuit of small fish Surprisingly little was known about Puffin ecology until recently thanks to their preferred breeding habitat being underground on remote islands or hard to reach coastlines Now Euan Dunn discloses all we have learnt about them as a result of technological advances and provides a revealing account of their life cycle behaviour and breeding what they eat how they interact in their busy colonies and where they migrate to in winter Euan also exposes the mounting threats Puffins face and offers advice on the best places to see them Each Spotlight title is carefully designed to introduce readers to the lives and behaviour of our favourite birds and mammals [The Secret Lives of Puffins](#) Dominic Couzens, 2014-07-31 An intimate photographic and pen portrait of one of the world's favourite birds Puffins are among the most instantly recognisable iconic and well loved of birds For many they are a highlight of the UK's summer coastline and their colourful appearance comedy antics and approachability just add to their popularity Several hotspots are attracting high levels of interest in visits to their colonies In spite of the high level of interest in and appeal of these birds there has been a surprising lack of books focused on Puffins as a species Award winning wildlife photographer Mark Sisson has spent several years photographing Puffins and this new book combines images that beautifully encapsulate their charm and visual appeal with an accessible text written by leading wildlife writer Dominic Couzens The book covers the birds life cycle behaviour habitats and the current and future challenges that they face along with many surprising facts and anecdotes
