Mediation Law and Civil Practice Tony Allen, 2019-01-18 Mediation Law and Civil Practice examines the position of mediation within the civil justice system in England and Wales. It explains and challenges current thinking about mediation, identifying ways for the government and judiciary to improve the delivery of justice through greater trust in the process. It traces the evolution of the relationship between the courts and mediation, discussing all the significant judgments relating to mediation over the last 25 years, as well as exploring the key concepts at the heart of mediation and all the latest developments. Mediation Law and Civil Practice also challenges the status quo by casting doubt on some decisions and generates alternative thinking around current legal and practice concepts. As well as updating all case law, the second edition also discusses the attitudes generated by the Jackson Review and also the Briggs reforms proposed in the Chancery Modernisation Review and his Court Structure Review. Discusses AB v CD in which a mediator has now given evidence in an English court and Global and related cases on varying whole agreement clauses. Enlarges the discussion of protocols which have been modified and remain inconsistent in their treatment of ADR. Analyses the EU Consumer Directive sets out the reforms to CPR Part 36. Mediators, mediation providers, lawyers, judges, academics and students will all benefit from the expert commentary and in-depth analysis in this book. It is also a useful guide for academics and mediation providers outside of the UK who are seeking to influence the development of mediation in their jurisdictions. This title is included in Bloomsbury Professional's Mediation online service.

House of Commons - Transport Committee: Cost of Motor Insurance: Whiplash - HC 117 Great Britain: Parliament: House of Commons: Transport Committee,2013-07-31 Whiplash injuries can have debilitating consequences for those who suffer them However some of the increase in whiplash claims will have been due to fraud or exaggeration The Government must tighten up the requirements for motor insurance claims and ensure that insurers honour their commitment to reduce premiums The Government should consider requiring claimants to provide proof that they have either been seen by a doctor or attended A E shortly after the accident The MPs also note that their previous recommendation on making the links between insurers and other parties involved with claims more transparent has been ignored The absence of comprehensive statistics about road traffic accidents means that it is impossible to relate the increasing number of personal injury claims in recent years to the number of accidents Data collection about road accidents needs to be improved help to assist detection of fraudulent personal injury claims and help highways authorities improve road safety by targeting spending on accident black spots The Committee also supports the proposal for an accreditation scheme for medical practitioners who provide medical reports in relation to whiplash claims Access to justice could also be impaired by Government proposals to switch whiplash claims between 1 000 and 5 000 to the small claims court particularly for people who do not feel confident to represent themselves against insurers who will use legal professionals to contest claims Ways in which use of the small claims track could be combined with the routine submission of expert evidence should be considered
