Russian Spetsnaz Manual:

Spetsnaz Manual of the Military Scout Threat Analysis Group, Soviet Military Press, 2018-09-15 This training manual comprehensively examines the methods and methods of training an army scout The technique of concealed and noiseless movement methods of conducting reconnaissance of various objects techniques and methods of orientation techniques of hand to hand combat are aptly and visually shown Recommendations are given to ensure and preserve the fighting efficiency of personnel in reconnaissance The publication is intended for commanders of subdivisions of the Land Forces and cadets of military schools

Spetsnaz: Scout Physical Training Manual Threat Analysis Group, 2019-01-10 This is a translation of a manual utilized by the Soviet Union to train soldiers in the techniques of infiltration reconnaissance and battlefield surveillance It emphasizes the high standard the Soviet and later Russian military places on physical fitness as a fundamental requirement for mission success The manual concludes with instructions for the layout and construction of specialized courses for perfecting the skills illustrated within this manual These tactical courses have been found in Columbia Chechnya Afghanistan Iraq and Syria FARC Al Qaeda and ISIS are known to use these tactical courses to train their recruits Clearly these techniques are quickly spreading through conflict zones worldwide The drills are simple easy to learn and easily retained and are well suited for training motivated but unskilled recruits As the Spetsnaz say Do more with less

Spetsnaz Mark Galeotti, 2015-06-20 When the shadowy notorious Spetsnaz were first formed they drew on a long Soviet tradition of elite behind the lines commando forces from World War II and even earlier Throughout the 1960s 70s they were instrumental both in projecting Soviet power in the Third World and in suppressing resistance within the Warsaw pact As a powerful but mysterious tool of a world superpower the Spetsnaz have inevitably become the focus of many tall tales in the West In this book a peerless authority on Russia's military Special Forces debunks several of these myths uncovering truths that are often even more remarkable Now since the chaotic dissolution of the USSR and the two Chechen Wars Russian forces have seen increasing modernization involving them ever more in power projection counter insurgency and anti terrorism and the Spetsnaz have been deployed as a spearhead in virtually all of these operations This book offers a unique absorbing guide to the secrets of the Spetsnaz their most noteworthy missions and personalities but is also packed with details such as orders of battle equipment and operational doctrine

The Elite Forces Handbook of Unarmed Combat Ron Shillingford, 2001-08-27 Examines techniques used by special forces around the world the lethal strikes of the Spetsnaz locks and constrictions used by the Egyptian special forces U S Army throws and holds and elementary methods taught to Britain's Parachute Regiment

Corporate Security Professional's Handbook on Terrorism Edward Halibozek, Andy Jones, Gerald L.

Kovacich, 2007-08-28 The Corporate Security Professional's Handbook on Terrorism is a professional reference that clarifies the difference between terrorism against corporations and their assets versus terrorism against government assets. It addresses the existing misconceptions regarding how terrorism does or does not affect corporations and provides security professionals and business executives with a better understanding of how terrorism may impact them. Consisting of three sections, Section I provides an explanation of what terrorism is, its history, who engages in it, and why. Section II focuses on helping the security professional develop and implement an effective anti-terrorism program in order to better protect the employees and assets of the corporation. Section III discusses the future as it relates to the likelihood of having to deal with terrorism. The book provides the reader with a practitioner's guide augmented by a historical assessment of terrorism and its impact to corporations, enabling them to immediately put in place useful security processes and methods to protect their corporate interests against potential acts of terror. This guide is an essential tool for preparing security professionals and company executives to operate in an increasingly hostile global business environment. Features case studies involving acts of terror perpetrated against corporate interests. Provides coverage of the growing business practice of outsourcing security. Remains practical and straightforward in offering strategies on physically securing premises, determining risk, protecting employees, and implementing emergency planning. Routledge Handbook of U.S. Counterterrorism and Irregular Warfare Operations Michael A. Sheehan, Erich Marquardt, Liam Collins, 2021-07-14 This handbook comprises essays by leading scholars and practitioners on the topic of U.S. counterterrorism and irregular warfare campaigns and operations around the globe. Terrorist groups have evolved substantially since 9/11, with the Islamic State often described as a pseudo-state, a terrorist group, and insurgency all at the same time. While researchers, analysts, and policymakers' understanding of terrorism has grown immensely over the past two decades, similar advancements in the understanding of counterterrorism lag. As such, this handbook explains why it is necessary to take a broader view of counterterrorism, which can and often does include irregular warfare. The volume is divided into three thematic sections. Part I examines modern terrorism in the Islamic world and gives an overview of the major terrorist groups from the past three decades. Part II provides a wide variety of case studies of counterterrorism and irregular warfare operations spanning from the 1980s to the irregular warfare campaign against the Islamic State in northern Syria in 2018. Part III examines the government instruments used to combat terrorism and wage irregular warfare, such as drones, Theater Special Operations Commands, and Theater Commands. The handbook fills a gap in the traditional counterterrorism literature by its inclusion of irregular warfare and by providing analyses from academic experts as well as practitioners. It will be of much interest to students of counterterrorism, counterinsurgency, U.S. national security, military affairs, and International Relations.
