Stanley and Other World-renowned Travelers** Henry Davenport Northrop, 1889 Wonders of the Tropics Henry Davenport Northrop, 1890 **Motion Picture Herald**, 1927 *The Worst Military Leaders in History* John M. Jennings, Chuck Steele, 2023-06-24 Spanning countries and centuries a how not to guide to leadership that reveals the most maladroit military commanders in history now in paperback For this book fifteen distinguished historians were given a deceptively simple task identify their choice for the worst military leader in history and then explain why theirs is the worst From the clueless Conrad von H tzen-dorf and George A Custer to the criminal Baron Roman F von Ungern Sternberg and the bungling Garnet Wolseley this book presents a rogues gallery of military incompetents Rather than merely rehashing biographical details the contributors take an original and unconventional look at military leadership in a way that appeals to both specialists and general readers alike While there are plenty of books that analyze the keys to success *The Worst Military Leaders in History* offers lessons of failure to avoid In other words this book is a how not to guide to leadership **The County Families of the United Kingdom** Edward Walford, 1871 **New York School** Irving Sandler, 2019-03-01 FROM 1947 TO 1951 more than a dozen Abstract Expressionists achieved breakthroughs to independent styles 1 During the following years these painters the first generation of the New York School received growing recognition nationally and globally to the extent that American vanguard art came to be considered the primary source of creative ideas and energies in the world and a few masters notably Pollock de Kooning and Rothko were elevated to art history's pantheon Younger artists who entered their circle in the early fifties the early wave of the second generation such as Larry Rivers Helen Frankenthaler Grace Hartigan Allan Kaprow Joan Mitchell Robert Rauschenberg and Richard Stankiewicz to list some of the better known were also acclaimed but with a few exceptions their reputations had gone into decline by the end of the fifties In the following decade the second generation was eclipsed by a third generation the innovators of Pop Op Minimal and Conceptual Art Any notion of a generation of artists is necessarily arbitrary of course The term generation as it is used here refers to a group of artists close in age who live in the same neighborhood at the same time and to a greater or lesser degree know each other and partake of a similar sensibility a shared outlook and aesthetic Sound Waves, 1928 **Raymond Parker**, 1961

The county families of the United Kingdom; or, Royal manual of the titled and untitled aristocracy of Great Britain and Ireland. 1st-4th, 6th, 12th-18th, 20th-58th, 60th ed Edward Walford, 1893 *The Development of British Amphibious Operations 1882-1914* Joseph Moretz, 2025-11-30 The projecting of military force to a distant shore has come to be seen as a uniquely British way of waging war To be sure many of these operations would now be classed as administrative landings with battle if occurring at all only following sometimes afterward Others of course merit the label of opposed landings To contemporaries of the period covered by this study the evolutions went by the appellation of conjoint or

combined operations Less important than how they were styled remains the thought and the purpose giving rise to these ventures In the decades before the First World War professionals appreciated the myriad difficulties and dangers associated with amphibious operations The laity including statesmen thought rather less of these matters but could recount numerous examples of their occurrence before 1914 Indeed whatever operational failings Britain demonstrated during the World War a corpus of relevant experience was the least of these What is now styled joint amphibious operations were difficult because they were never of a single type Naval support to a military force standing on the defensive raids feints blocking operations riverine operations and yes an opposed landing spoke to a series of joint operations of ever increasing complexity Meanwhile as every operation must at some point end even the manner of evacuation came to be viewed as a special type of combined operation to be understood and learned Finally it remained that in a campaign of the grandest scale examples of each might feature at differing moments along the way Landings before 1914 were difficult and what military and naval authorities thought feasible before the onset of the World War in the realm of joint operations is a neglected field of study a surprising omission given the ink that has been spilt retelling the debacles experienced at Gallipoli Mesopotamia and East Africa Every campaign has its context operational and strategic to be sure but also political doctrinal and bureaucratic How Britain elected to wage war in 1914 proved a product of these variables just as surely as the military and naval capabilities it could muster Tying the strands of pre war military experience and thought in the realm of joint operations is the chief purpose of this study which takes as its starting point 1882 and the British assault against Egypt The choice is far from arbitrary as the moment saw several earning their spurs who would later play a central role in the amphibious operations executed during the Great War To the extent learning is more than the product of self experience this work pays special attention to the Russo Japanese War Thinking officers appreciated that fundamental changes were occurring in the nature and style of war A learned public also appreciated this courtesy of works such as Ivan Bloch s *Is War Now Possible* Notwithstanding what British officers understood on the eve of the World War the problem of time and scale remained This alone should give one pause before chiding others over past mistakes This study looks at what was thought what was taught what was expected and what occurred in the thirty years before Britain found herself facing a scale of conflict not witnessed in a century

Mixed Nuts ,2002 *The County Families of the United Kingdom Or Royal Manual of the Titled and Untitled Aristocracy of Great Britain and Ireland* Edward Walford,1893 **The Enemy Within** Michael Thomas Smith,2011-05-29 Stoked by a series of major scandals popular fears of corruption in the Civil War North provide a unique window into Northern culture in the Civil War era In *The Enemy Within* Michael Thomas Smith relates these scandals including those involving John C Fr mont s administration in Missouri Benjamin F Butler s in Louisiana bounty jumping and recruitment fraud controversial wartime innovations in the Treasury Department government contracting and the cotton trade to deeper anxieties The massive growth of the national government during the Civil War and lack of effective regulation made

corruption all but inevitable as indeed it has been in all the nation's wars and in every period of the nation's history Civil War Northerners responded with unique intensity to these threats however If anything the actual scale of nineteenth century public corruption and the party campaign fundraising with which it tended to intertwine was tiny compared with that of later eras following the growth and consolidation of big business and corporations Nevertheless Civil War Northerners responded with far greater vigor than their descendants would muster against larger and more insidious threats In the 1860s the popular conception of corruption could still encompass such social trends as extravagant spending or the enjoyment of luxury goods Even more telling are the ways in which citizens' definitions of corruption manifested their specific fears of government spending and centralization of immigrants and the urban poor of aristocratic ambition and pretension and most fundamentally of modernization itself Rational concerns about government honesty and efficiency had a way of spiraling into irrational suspicions of corrupt cabals and conspiracies Those shadowy fears by contrast starkly illuminate Northerners' most cherished beliefs and values

Samuel Beckett and Europe Michela Bariselli, Niamh M. Bowe, William Davies, 2018-04-18 Drawing on the diverse critical debates of the Beckett and Europe conference held in Reading UK in 2015 this volume brings together a selection of essays to offer an international response to the central question of what Europe might mean for our understandings of the work of Samuel Beckett Ranging from historical and archival work to the close interrogation of language and form from the influences of various national literary traditions on Beckett's writing to his influence on the work of other writers and thinkers this book examines the question of Europe from multiple vantage points so as to reflect the ways in which Beckett's oeuvre both challenges and enlivens his status as a European writer With a full introductory chapter examining the challenging implications of the term Europe in the contemporary period this volume treats Europe as a recognition of the multiple ways that Beckett's poetry criticism prose and drama invite new understandings of the role of history culture and tradition in one of the most significant bodies of writing of the twentieth century **Theatre World**

1991-1992 John Willis, 2000-05 Theatre World Theatre World the statistical and pictorial record of the Broadway and off Broadway season touring companies and professional regional companies throughout the United States has become a classic in its field The book is complete with cast listings replacement producers directors authors composers opening and closing dates song titles and much much more There are special sections with biographical data obituary information listings of annual Shakespeare festivals and major drama awards **James Fraser, Second Bishop of Manchester** Thomas Hughes, 1887
