Snorkeling in the ocean can be an exhilarating experience, until one begins to question what might be lurking down below. The fear of sharks can seriously impact an enjoyable day swimming in the sea. Recently, scientists at a company called *Shark Defense* started testing various ways to keep sharks away from humans. They've found that the smell of rotting sharks may actually keep live sharks away, so they made a chemical that smells like dead and rotting sharks. Scientists believe this chemical might be able to repel sharks. Some may believe this is a great idea since people will be able to enjoy time in the water without worrying about shark attacks. However, creating chemicals to release in the ocean is dangerous because they may harm the environment, they could be harmful to people and they can create a false sense of safety.

MacArthur, Jill Fitzgerald, 2013-03-26 This book has been replaced by Best Practices in Writing Instruction Third Edition ISBN 978 1 4625 3796 9 **Developing Creative Thinking to Improve Academic Writing** Azza Abugharsa PhD, 2018-05-08

Developing Creative Thinking to Improve Academic Writing Part Two Advanced Level textbook helps enhancing lateral thinking within the given contextual frame in order to promote students intellectual challenge to produce a comprehensive understanding about the topic This facilitates flexible thinking required to write academic assignments in which arguments are presented for thorough analysis Since rigid judgments can lead to fossilized views it is recommended to emphasize the concept that all opinions are correct from the points of view of their holders In this regard this book helps college students practice improving their triangular thinking skills which emphasize evaluation of all the aspects of the topic in an equal pattern Furthermore this book is useful for ESL college students as well as native speakers of English as it reinforces transformational learning principles which highlight education by inspiration rather than information Such a strategy can

motivate the students to become more creative more practical and more resourceful and enable them to transform their learning related thinking abilities and attitudes in order to come to a better understanding of themselves and the world
