Gelman, 2005-04-21 Numerous fields stake claims about essentialism but this is the first book to address the issues surrounding essentialism from the perspective of developmental psychology Gelman synthesizes 15 years of empirical research on essentialism into a coherent framework examining children's thinking and ways in which language influences thought She argues that young children's use of concepts such as dog man or intelligence reflects their deep commitment to the presence of these categories properties that extends beyond the observable information about objects The presence of this commitment in children also means that they do not come into the world as passive recipients of data but rather have an organizational scheme that supports categories This volume will be of interest to developmental cognitive and social psychologists as well as to scholars in cognitive science and philosophy *Comprehensive Handbook of Psychological Assessment, Volume 1* Gerald Goldstein, Sue R. Beers, 2004-04-02 In one volume the leading researchers in intelligence and neuropsychological assessment interpret the range of issues related to intellectual and neuropsychological tests including test development and psychometrics clinical applications ethical and legal concerns use with diverse populations computerization and the latest research Clinicians and researchers who use these instruments will find this volume invaluable as it contains the most comprehensive and up to date information available on this important aspect of practice [On the Success of Failure](#) Karl L. Alexander, Doris R. Entwistle, Susan L. Dauber, 2003 This book is about the practice of grade retention in elementary school a particularly vexing problem in urban school systems where upward of half the students may repeat a grade On the Success of Failure addresses whether repeating a grade is helpful or harmful when children are not keeping up It describes the school context of retention and evaluates its consequences by tracking the experiences of a large representative sample of Baltimore school children from first grade through high school In addition to evaluating the consequences of retention the book describes the cohort's dispersion along many different educational pathways from first grade through middle school the articulation of retention with other forms of educational tracking like reading group placements in the early primary grades and course level assignments in middle school and repeaters academic and school adjustment problems before they were held back [Annual Education Report](#) United States.
