**Audio/Visual Rental Policy: PLEASE READ CAREFULLY**

- + All Audio/Visual equipment is rented on a first-come, first-served basis.
- + The Center's business hours are: 9am - 5pm, Monday - Friday. If your rental period begins prior to opening or extends past closing you will need to pick up a key to the Audio/Visual storage unit during regular business hours the day prior to your meeting. If the key is not returned immediately after your rental period you will be charged a not-losing fee of \$50.00.
- + All first-time Lessee's of the Audio/Visual equipment must receive a short equipment use training from a TEC staff person. Training is available during business hours only. It is highly recommended that you test compatibility of your computer and/or MP3 player with our Audio/Visual equipment before your meeting actually occurs, to avoid problems at your event.
- + If additional support from the TEC staff is required, OR if you prefer TEC to set up your equipment for you (available only during above business hours), TEC will assess a set-up and breakdown fee of \$25.00 per event.
- + The Lessee takes full responsibility of Audio/Visual equipment rented until the equipment rented is returned to and securely locked in the storage cabinet and the cabinet storage key returned. If any A/V equipment is damaged, broken, or otherwise damaged during the rental period while the storage key is in Lessee's possession, the Lessee agrees to

**EFFECTIVE RESPONSE TO SCHOOL VIOLENCE** Tony L. Jones, 2001-01-01 This timely and comprehensive guide is designed to meet the security response needs of both educators and law enforcement personnel by detailing how an effective response plan can be developed to deal with the issue of school violence. By implementing the guidelines detailed in this book, those in responsible positions can help prevent the incalculable costs of death, facility destruction, disruption of operations, negative public perception, and the resulting embarrassment that these acts cause. The information presented will help reduce the amount of collateral damage to the threat area and adjacent areas. It is designed to expand the effectiveness and performance of special response police forces, fire department personnel, medical aid personnel, and ancillary support personnel, as well as provide a comprehensive guide to school administrators and other educators who are concerned with school safety issues. The main idea behind this book is the principle of saving lives when all other proactive means have failed. It focuses on the elements of rapid containment, area control, and the re-securing of the affected area. The author emphasizes that time is an essential factor; the longer the perpetrators remain active, the higher the likelihood that additional people will be killed. In addition, the book is designed to generate a detailed analysis of possible contingency plans for respective emergency responders. An analysis is also included that is site specific and which will help to streamline the planning efforts of all emergency responders, thus heightening personnel survivability and mission success. It is a must read for those who are responsible for school safety and security.

*Surveillance, Closed Circuit Television and Social Control* Clive Norris, Jade Moran, 2016-12-05 The rise of CCTV camera surveillance in Britain has been dramatic. Practically every major city now boasts a CCTV system aimed at, among other things, preventing, detecting, and reducing the fear of crime. Increasingly, these developments are mirrored in villages, shopping malls, residential estates, transport systems, schools, and hospitals throughout the country. In short, for the majority of citizens, it is now impossible to avoid being monitored and recorded as we move through public space. *Surveillance, CCTV and Social Control* represents the first systematic attempt to account for this phenomenon. It brings together leading researchers from the fields of anthropology, criminology, evaluation, geography, sociology, and urban planning to explore the development, impact, and implications of CCTV surveillance. Accordingly, attention is directed to a number of key questions: How does CCTV fit with the trends of late modernity? Does CCTV reduce crime or merely shift it elsewhere? How should CCTV be evaluated? What is the significance of CCTV for women's safety? How adequate is the regulation of CCTV? In the light of recent technological developments, what is the future of CCTV surveillance?
