Youth brought-up in impecunious housing are more susceptible to malnourishment, insufficient schooling, social issues, and difficulty achieving tasks and/or goals, both long-term and short-term. Defining Poverty

Defining poverty has remained a controversial matter; should it be considered a matter of financial standing, or a lacking general social expectancies? Economically poverty is calculated on a scale, by way of measurement, to achieve the absolute poverty line. The calculations from these computations, are used in determining the expenditures per dietary standards, these proceed to be used to provide an allotted allowance for nourishment and necessities. The absolute poverty line assumes a threshold, to which, if not met, bestows an inability to maintain necessary living and health needed to survive.

Should a person be forced to reside in poverty because minimum wage is not sufficient enough to match or exceed the total income meeting the poverty threshold? Does the need for government assistance determine impoverishment? These vast outlooks on the topic of penury, give great difficulty in determining it's true meaning.

To be evaluated and considered to live in privation, individuals must not exceed a minimal income based upon all documented expenses. Universal understandings of poverty can only be acknowledged if it includes the diversified cultures of different areas. Economic struggles differ from country to country. Different measures are assumed to which regions can provide a certain quality of life. Poverty refers more towards a matter of survival.
