Sheenagh Pietrobruno, 2006-03-07 *Salsa and Its Transnational Moves* presents a brilliant critical analysis of salsa dancing in a major North American city. Drawing from a vast number of disciplines, author Sheenagh Pietrobruno focuses on the tension between the status of dance as a bodily expression of identity and its function as a cultural commodity within the economic life of modern day cities. This engaging work investigates the transnational movements of salsa by exploring the circulation of salsa within the Montreal dance scene, nourished by the continuous flow of a people, and examining the commodification of the Latino culture. Pietrobruno's analysis is singular in highlighting how the migration of a people and a dance represent displacements that are not always homologous. At the core of this work, Pietrobruno offers an extensive and intricate ethnography of the institutions and individuals involved in shaping the Montreal salsa scene that will appeal to academics and general audiences alike who are interested in the study of anthropology, popular music, dance, gender, ethnicity, and culture.

The Bloomsbury Companion to Dance Studies Sherril Dodds, 2019-03-21 *The Bloomsbury Companion to Dance Studies* brings together leading international dance scholars in this single collection to provide a vivid picture of the state of contemporary dance research. The book commences with an introduction that privileges dancing as both a site of knowledge formation and a methodological approach, followed by a provocative overview of the methods and problems that dance studies currently faces as an established disciplinary field. The volume contains eleven core chapters that each map out a specific area of inquiry: Dance Pedagogy, Practice As Research, Dance and Politics, Dance and Identity, Dance Science, Screen Dance, Dance Ethnography, Popular Dance, Dance History, Dance and Philosophy, and Digital Dance. Although these sub-disciplinary domains do not fully capture the dynamic ways in which dance scholars work across multiple positions and perspectives, they reflect the major interests and innovations around which dance studies has organized its teaching and research. Therefore, each author speaks to the labels, methods, issues, and histories of each given category while also exemplifying this scholarship in action. The dances under investigation range from experimental, conceptual, concert dance through to underground street dance practices, and the geographic reach encompasses dance making from Europe, North and South America, the Caribbean, and Asia. The book ends with a chapter that looks ahead to new directions in dance scholarship, in addition to an annotated bibliography and list of key concepts. The volume is an essential guide for students and scholars interested in the creative and critical approaches that dance studies can offer.

Ranciere and Music Cachopo Joao Pedro Cachopo, 2020-04-15 The place of music in Ranciere's thought has long been underestimated or unrecognised. This volume responds to this absence with a collection of 15 essays by scholars from a variety of music and sound-related fields, including an Afterword by Ranciere on the role of music in his thought and writing. The essays engage closely with Ranciere's existing commentary on music and its relationship to other arts in the aesthetic regime, revealed through detailed case studies around music, sound, and listening. Ranciere's thought is explored along a number of music historical trajectories, including Italian and German opera, Romantic and modernist music, Latin American and South African music, jazz, and contemporary popular music.

Ranciere's work is also set creatively in dialogue with other key contemporary thinkers including Adorno, Althusser, Badiou and Deleuze.

British Dance: Black Routes Christy Adair, Ramsay Burt, 2016-10-04 British Dance Black Routes is an outstanding collection of writings which re-reads the achievements of Black British dance artists and places them within a broad historical, cultural and artistic context. Until now, discussion of choreography by Black dance practitioners has been dominated by the work of African American artists facilitated by the civil rights movement. But the work produced by Black British artists has in part been within the context of Britain's colonial legacy. Ramsay Burt and Christy Adair bring together an array of leading scholars and practitioners to review the singularity and distinctiveness of the work of British-based dancers who are Black and its relation to the specificity of Black British experiences. From sub-Saharan West African and Caribbean dance forms to jazz and hip-hop, British Dance Black Routes looks afresh at over five decades of artistic production to provide an unparalleled resource for dance students and scholars. Secular Devotion Timothy Brennan, 2020-05-05 Popular music in the Americas from jazz, Cuban and Latin salsa to disco and rap is overwhelmingly neo-African. Created in the midst of war and military invasion and filtered through a Western worldview, these musical forms are completely modern in their sensibilities; they are in fact the very sound of modern life. But the African religious philosophy at their core involved a longing for earlier eras, ones that predated the technological discipline of labor forced on captive populations by the European occupiers. In this groundbreaking new book, Timothy Brennan shows how the popular music of the Americas—the music of entertainment, nightlife and leisure—is involved in a devotion to an African religious worldview that survived the ravages of slavery and found its way into the rituals of everyday listening. In doing so, he explores the challenge posed by Afro-Latin music to a world music system dominated by a few wealthy countries and the processes by which Afro-Latin music has been absorbed into the imperial imagination.

Learning Senegalese Sabar Eleni Bizas, 2014-02-01 Based on extensive ethnographic fieldwork in New York and Dakar, this book explores the Senegalese dance rhythms Sabar from the research position of a dance student. It features a comparative analysis of the pedagogical techniques used in dance classes in New York and Dakar, which in turn shed light on different aesthetics and understandings of dance as well as different ways of learning in each context. Pointing to a loose network of teachers and students who travel between New York and Dakar around the practice of West African dance forms, the author discusses how this movement is maintained, what role the imagination plays in mobilizing participants, and how the cultural flow of the dances is punctuated by national borders and socio-economic relationships. She explores the different meanings articulated around Sabar's transatlantic movement and examines how the dance floor provides the grounds for contested understandings, socio-economic relationships and broader discourses to be re-choreographed in each setting.
