The term research is well-known to the logical world which plays an important role in finding the new problems and solutions, ideas, techniques, procedures, drugs, etc. Good use of research knowledge especially in writing is imperative to make it beneficial for larger community. In writing of knowledge, proper review of literature is very essential to gather research-problem-related information. Writer should follow the steps throughout collection of data during writing of review article. Review of literature increases clarity, reliability, uniformity and critical evaluation of evidence. This paper attempts to explain the guidelines and steps of review manuscript writing.

Keywords: Guidelines, Review, Characteristics

Introduction

Literature review is the most important aspect of research.¹ A review article is a critical analysis of the literature in a specific area of knowledge through outline, classification, comparison, etc.² A good review article requires briefing, analysing, and synthesizing the study that has been completed on a particular topic. It makes the data more accessible and convenient to publication of research.³ The foremost aim of a review paper is to examine the current status of the given topic as well as talk about the research methodologies and research-problem-related findings. A review text should enclose a complete list of references that are cited in the text.⁴ During writing of review paper, researcher should keep in mind about readers' approaches (i.e., professionals in specific research field, students or beginner research scholars, etc.).^{1,2}

Purpose of a review article

With the help of review article, researcher has to organize,

synthesize and evaluate the literature; in addition, to discover patterns and development in the literature and evaluate the research gaps and propose new research areas.²

Types of Review Article

Review (Overview) Article

There are two basic types of review articles: one is systematic, another is non-systematic. An advanced preparation of specific methodology of review paper is needed in systematic review. Non-systematic review may require a selection of a wide variety of topic-related technical outcome which reflects the expert experiences and interests of the writer.⁴

Critical Review

It analyses the potency as well as fault of a research article after studying the discussed research problem and scientific contents. The review should appropriately explain the

Waste Feedstocks Ozcan Konur, 2023-12-22 This book provides an overview of research on the production of bioethanol fuels from waste feedstocks such as second generation residual sugar and starch feedstocks food waste industrial waste urban waste forestry waste and lignocellulosic biomass at large with 17 chapters In this context there are eight sections where the first two chapters cover the production of bioethanol fuels from waste feedstocks at large This book is the fourth volume in the Handbook of Bioethanol Fuels Six Volume Set It shows that pretreatments and hydrolysis of the waste feedstocks fermentation of hydrolysates and separation and distillation of bioethanol fuels are the fundamental processes for bioethanol fuel production from these waste feedstocks This book is a valuable resource for stakeholders primarily in research fields of energy and fuels chemical engineering environmental science and engineering biotechnology microbiology chemistry physics mechanical engineering agricultural sciences food science and engineering materials science biochemistry genetics molecular biology plant sciences water resources economics business and management transportation science and technology ecology public environmental and occupational health social sciences toxicology multi disciplinary sciences and humanities among others

Biodiesel Fuels Based on Edible and Nonedible Feedstocks, Wastes, and Algae Ozcan Konur, 2021-05-05 This second volume of the Handbook of Biodiesel and Petrodiesel Fuels presents a representative sample of the population papers in the field of feedstock specific biodiesel fuels The research on feedstocks for biodiesel fuels has first focused on the edible oils as first generation biodiesel fuels However the public concerns about the competition with foods based on these feedstocks and adverse impact on the ecological diversity and deforestation have resulted in the exploration of nonedible oil based biodiesel fuels as second generation biodiesel fuels in the first instance Due to the ecological and cost benefits of treating wastes waste oil based biodiesel fuels as third generation biodiesel fuels have emerged Furthermore following a series of influential review papers the research has focused on the algal oil based biodiesel fuels in recent years Since the cost of feedstocks in general constitutes 85% of the total biodiesel production costs the research focused more on improving biomass and lipid productivity in these research fields Furthermore since water CO₂ and nutrients primarily N and P have been major ingredients for the algal biomass and lipid production the research has also intensified in the use of wastewaters and flue gases for algal biomass production to reduce the ecological burdens and the production costs Part 1 presents a representative sample of the population papers in the field of edible oil based biodiesel fuels covering major research fronts It covers soybean oil based biodiesel fuels palm oil based biodiesel fuels and rapeseed oil based biodiesel fuels as case studies besides an overview paper Part 2 presents a representative sample of the population papers in the field of nonedible oil based biodiesel fuels covering major research fronts It covers Jatropha oil based biodiesel fuels polanga oil based biodiesel fuels and moringa oil based biodiesel fuels as case studies besides an overview paper Part 3 presents a

I. Ozcan Konur,2023-12-22 This book aims to inform readers about the recent developments in the evaluation and utilization of bioethanol fuels It covers the evaluation and utilization of bioethanol fuels in general gasoline fuels nanotechnology applications in bioethanol fuels utilization of bioethanol fuels in transport engines evaluation of bioethanol fuels utilization of bioethanol fuels in general and development and utilization of bioethanol fuel sensors This book is the fifth volume in the Handbook of Bioethanol Fuels Six Volume Set It indicates that research on the evaluation and utilization of bioethanol fuels has intensified in recent years to become a major part of bioenergy and biofuels research together primarily with biodiesel biohydrogen and biogas research as a sustainable alternative to crude oil based gasoline and petrodiesel fuels as well as natural gas and syngas This book is a valuable resource for stakeholders primarily in the research fields of energy and fuels chemical engineering environmental science and engineering biotechnology microbiology chemistry physics mechanical engineering agricultural sciences food science and engineering materials science biochemistry genetics and molecular biology plant sciences water resources economics business and management transportation science and technology ecology public environmental and occupational health social sciences toxicology multidisciplinary sciences and humanities among others **How to Write and Publish a Scientific Paper** Robert A Day,Barbara Gastel,2006-04-26 Guide on writing and submitting a scientific paper for graduates to professionals *Petrodiesel Fuels* Ozcan Konur,2021-05-05 This third volume of the handbook presents a representative sample of the population papers in the field of petrodiesel fuels Following the substantial public concerns on the adverse impact of the emissions from petrodiesel fuels on the environment and human health the research has intensified in the areas related to the reduction of these adverse effects Thus bioremediation of spills from crude oils and petrodiesel fuels at sea and soils as well as desulfurization of petrodiesel fuels have emerged as publicly important research areas Similarly the emissions from diesel fuel exhausts due to their

adverse effects on both human health and environment have been researched more in recent years These emissions cover particulate emissions aerosol emissions and NO_x emissions Research on the adverse impact of petrodiesel fuel exhaust emissions on human health has primarily progressed along the lines of respiratory illnesses cancer and other illnesses such as cardiovascular illnesses brain illnesses and reproductive system illnesses through human animal and in vitro studies It is clear that these illnesses caused by the petrodiesel fuel exhaust emissions have been one of the most significant reasons to develop alternative biodiesel fuels Part IX presents a representative sample of the population papers in the field of crude oils covering major research fronts It covers crude oil spills in general crude oil spills and their cleanup properties and removal of crude oils biodegradation of crude oil contaminated soils and crude oil recovery besides an overview paper Part X presents a representative sample of the population papers in the field of petrodiesel fuels in general covering major research fronts It covers combustion of biodiesel fuels in diesel engines bioremediation of biodiesel fuel contaminated soils biodiesel power generation and desulfurization of diesel fuels besides an overview paper Part XI presents a representative sample of the population papers in the field of emissions from petrodiesel fuels covering major research fronts It covers diesel emission mitigation diesel particulate emissions and diesel NO_x emissions besides an overview paper Part XII presents a representative sample of the population papers in the field of the health impact of the emissions from petrodiesel fuels covering major research fronts It covers respiratory illnesses cancer cardiovascular brain and reproductive system illnesses besides an overview paper This book will be useful to academics and professionals in the fields of Energy Fuels Public Environmental Occupational Health Pharmacology Pharmacy Immunology Respiratory System Allergy and Oncology Ozcan Konur is both a materials scientist and social scientist by training He has published around 200 journal papers book chapters and conference papers He has focused on the bioenergy and biofuels in recent years In 2018 he edited Bioenergy and Biofuels which brought together the work of over 30 experts in their respective field He also edited the Handbook of Algal Science Technology and Medicine with a strong section on the algal biofuels in 2020

Research Anthology on Decision Support Systems and Decision Management in Healthcare, Business, and Engineering Management Association, Information Resources, 2021-05-28 Decision support systems DSS are widely touted for their effectiveness in aiding decision making particularly across a wide and diverse range of industries including healthcare business and engineering applications The concepts principles and theories of enhanced decision making are essential points of research as well as the exact methods tools and technologies being implemented in these industries From both a standpoint of DSS interfaces namely the design and development of these technologies along with the implementations including experiences and utilization of these tools one can get a better sense of how exactly DSS has changed the face of decision making and management in multi industry applications Furthermore the evaluation of the impact of these technologies is essential in moving forward in the future The Research Anthology on Decision Support Systems and Decision Management in Healthcare Business and Engineering

explores how decision support systems have been developed and implemented across diverse industries through perspectives on the technology the utilizations of these tools and from a decision management standpoint The chapters will cover not only the interfaces implementations and functionality of these tools but also the overall impacts they have had on the specific industries mentioned This book also evaluates the effectiveness along with benefits and challenges of using DSS as well as the outlook for the future This book is ideal for decision makers IT consultants and specialists software developers design professionals academicians policymakers researchers professionals and students interested in how DSS is being used in different industries *Teaching Statistics and Quantitative Methods in the 21st Century* Joseph Lee Rodgers,2020-07-14

This work which provides a guide for revising and expanding statistical and quantitative methods pedagogy is useful for novice and seasoned instructors at both undergraduate and graduate levels inspiring them to use transformative approaches to train students as future researchers Is it time for a radical revision in our pedagogical orientation How are we currently teaching introductory statistics and quantitative methods and how should we teach them What innovations are used what is in development This ground breaking edited volume addresses these questions and more providing cutting edge guidance from highly accomplished teachers Many current textbooks and syllabi differ in only superficial ways from those used 50 years ago yet the field of quantitative methods and its relationship to the research enterprise has expanded in many important ways A philosophical axiom underlying this book is that introductory teaching should prepare students to potentially enter more advanced quantitative methods training and ultimately to become accomplished researchers The reader is introduced to classroom innovation and to both pragmatic and philosophical challenges to the status quo motivating a broad revolution in how introductory statistics and quantitative methods are taught Designed to update and renovate statistical pedagogy this material will stimulate students new instructors and experienced teachers *Research Handbook on Women in International Management* Kate Hutchings,Snejina Michailova,2014-03-28 The Research Handbook on Women in International Management is a carefully designed collection of contributions that provides a thorough and nuanced discussion of how women engage in international management It also offers important insights into emerg

You Can Publish Your Journal Article Gilbert C. Gee,2023-11-27 You ve completed your research and want to publish it in a peer reviewed journal Author Gilbert C Gee is here to help sharing what he learned as a writer reviewer and Editor in Chief and calling on other journal editors to offer their advice You Can Publish Your Journal Article will not only help you write your paper but more importantly be more likely to succeed in peer review The book has four main premises that writing involves a relationship between you and your readers and that your research joins an ongoing conversation in the field that good writing is rewriting and revision is critical that people who write daily are more productive than those who binge write and finally that persistency wins so don t give up when you get a rejection With chapters offering practical advice on selecting the right journal peer review the methods section displaying your data writing the results and discussion sections the book

concludes with short essays from invited journal editors about how to avoid common mistakes and ensure success

research in this field has intensified in recent years with the increasing volume of biodiesel fuels creating eco friendly solutions for these wastes of biodiesel fuels for producing valuable biofuels and biochemicals from glycerol It covers biohydrogen and propanediol production from glycerol as a case study for bioenergy and biochemicals respectively This book will be useful to academics and professionals in the fields of Energy Fuels Chemical Engineering Physical Chemistry Biotechnology and Applied Microbiology Environmental Sciences and Thermodynamics Ozcan Konur is both a materials scientist and social scientist by training He has published around 200 journal papers book chapters and conference papers He has focused on the bioenergy and biofuels in recent years In 2018 he edited Bioenergy and Biofuels which brought together the work of over 30 experts in their respective field He also edited the Handbook of Algal Science Technology and Medicine with a strong section on the algal biofuels in 2020

How Economics Professors Can Stop Failing Us Steven Payson, 2017-08-18 This book provides an eye opening expos on economics professors that will surely shock anyone who is not familiar with the topic and even some of those who are familiar with it It is critical of the behavior of economics professors but is not critical of the field of economics itself In fact the book argues that it is essential for economics professors to improve in the work they perform precisely because of the vital importance of their field Other books that criticize economics professors typically present complex arguments that interest only the most advanced scholars However this book is completely different It is written to be understandable to anyone who has with an interest in economics regardless of their background At the same time the book does include the most relevant scholarly arguments it just presents them in a manner that allows anyone to understand them Also unlike other books on economics *How Economics Professors Can Stop Failing Us* is written in the context of a genuine expos As such it ventures backstage behind the show business that has dominated the profession revealing the profession s deep dark and at times rather ugly secrets The book is able to do this by having an author who has experienced first hand studied and written on this topic area for over three decades who has organized training seminars on it and who has served for over a decade as the Executive Director of the Association for Integrity and Responsible Leadership in Economics While exposing the profession s shameful problems the book also offers great hope in providing realistic solutions to them One of the main solutions it proposes is for economics professors who are now failing us to follow and learn from those other professors who are not failing us who have instead admirably upheld the principles of professional ethics and scientific integrity In this sense *How Economics Professors Can Stop Failing Us* offers the most hope and perhaps the only hope for economics professors to improve and to play the responsible role that their students their employers and society overall expects of them

Economic and Financial Crime, Sustainability and Good Governance Monica Violeta Achim, 2023-08-26 This book addresses the most widespread forms of financial crime today namely corporate fraud corruption tax fraud the shadow economy informal entrepreneurship money laundering international informal capital flows cybercrimes and cryptocurrency scams Given the rapid rise of digitalization especially due to the

COVID 19 pandemic there has been a huge surge in financial crime especially in the form of cybercrime which affects people's financial security. Hence the aim of this book is to stress the connected nature of financial crime and good governance in order to achieve the most positive sustainable development of society. The book analyzes financial crime in the context of digitalization. On the one hand digitalization offers clear advantages in terms of reducing classical types of fraud such as tax evasion, corruption, the shadow economy, etc. On the other hand digitalization offers new channels for criminals to gain illegal benefits when operating in digital space, e.g. through cybercrime, bank fraud, FinTech fraud, e-commerce fraud, etc. In this context the term digital shadow economy has recently emerged in the literature as an expression of the types of fraud committed in digital space. In addition the book explores issues concerning changes in regulations for various financial crimes around the world, statistics and ways to combat digital crimes including punitive, preventive and other measures. Special attention is paid to cybercrime and cybersecurity issues, the goal being to raise readers' awareness of these threats.

Proceedings of the 8th International Conference on Decision Support System Technology - ICDSST 2022 on Decision Support addressing modern Industry, Business and Societal needs Jason Papathanasiou, Maria Paraskeva, Belioika, Panagiota Dikoglou, Dimitrios Zopounidis, 2022-05-23 Additive Manufacturing – Developments in Training and Education Eujin Pei, Mario Monzón, Alain Bernard, 2018-06-30. This book provides an overview of training and teaching methods as well as education strategies for Additive Manufacturing (AM) and its application in different business sectors. It presents real world applications and case studies to demonstrate the key practical and theoretical fundamentals of AM training, written by international experts from the field. Additive Manufacturing is a rapidly developing technology and having a well trained workforce is essential. Accordingly readers are introduced to new training approaches and recent breakthroughs that can facilitate and accelerate the design, application and implementation of AM. The book's contributors discuss many topics to provide readers a fundamental grasp of AM including collaboration among educational bodies and between industry and governments, strategies for implementing AM training, new teaching methods, training programs that provide alternative employment choices, the need for certification by professional bodies and promoting awareness of AM in society. This book offers an excellent source of information for researchers and industrial engineers who are interested in expanding their AM expertise and learning how to implement it. It will also be of interest to readers who want to learn about the practicalities of adopting training and teaching for AM. *Research Perspectives on White-Collar and Corporate Crime Convenience* Petter Gottschalk, 2025-01-06. This study identifies current research perspectives on white collar and corporate crime convenience, an important emergent area of research. It applies the theory of convenience to research articles on white collar and corporate crime recently published in the most relevant journals addressing economic crime. This kind of white collar corporate crime is often committed by persons of respectability and high social status who commit financial crime based on their trusted professional positions with high social status. While convenience theory covers fourteen convenience propositions, there is

varying attention to them in the reviewed articles For example a frequent topic analysed in the journal articles is online romance fraud where victims were not on guard because they trusted their offenders Trust tends to strengthen the convenience proposition addressing lack of guardianship oversight and control The book adds substance to the theory of convenience that emerged less than a decade ago and has since been developing and applied by various scholars The review is also interesting from the perspective of understanding what aspects of crime convenience are implicitly and explicitly addressed in economic criminology research that is whether motives opportunities or attitudes are mainly addressed in financial crime research so far The second part of the book presents several short case studies on topics including fraud tax evasion and money laundering The final part of the book discusses gender convenience perspectives and the emerging issues around digital fraud
