Sample Essay #1 – Two Part Question

In some countries, the number of people visiting art galleries is reducing. What do you think the reasons for this are? How can we solve this problem?

In certain locations around the world, the number of people visiting art galleries is declining. This essay shall outline some of the reasons for this trend and then go on to suggest ways in which this issue could be resolved.

Firstly, visitor numbers are on the decline due in part to the ever-increasing convenience and ability of new technology. If someone has access to the internet from a device then there is virtually no need to visit an art gallery as all the finest works can be viewed online for as long as you want and at a minimal cost. For example, there is virtually no reason to go to the effort of leaving your house and traveling across a city and then paying and queuing with other people just to see works of art that you could just as easily view from the comfort of your own home.
