Apartheid and Fragmented Protest in Contemporary Southern Africa Cuthbeth Tagwirei,2025-09-26 Apartheid and Fragmented Protest in Contemporary Southern Africa examines protest movements through the lens of Apartheid Studies the first general theory of apartheid which explores how oppression harm injustice poverty loss and inequality persist The book argues that

apartheid which breaks the world of the oppressed into fragments fomenting diverse experiences of oppression among its victims frames the nature and course of protests by making them subject to its fragmentation Protest is thus redefined as good neighbourly and demoted on account of its symbiotic relationship to apartheid It is observed that the proliferation of protests does not preclude the persistence of apartheid Rather protest and apartheid are seen to be compatible By examining protest hashtags on X from South Africa and Zimbabwe the book explores and identifies the forms relations meanings trajectories and effects protests take evoke and embody as fragments subsisting in a fractured apartheid universe It demonstrates how and why life goes on amidst protest sheds light on the contradictions paradoxes and complexities that characterise protest movements and invites conversations around protest as a paradigm in the context of apartheid The book will be of interest to researchers across the fields of social movements protests sociology African Studies and communication and media studies

African Science Granting Councils Teboho Moja, Okunade Samuel, 2024-01-23 This book delves into the research policy nexus as it relates to development in Africa It does so by examining four country cases Botswana Cote d'Ivoire Kenya and Zambia while referring to South Africa as a possible exemplar case The book reaffirms that the majority of governments in Africa spend less than one per cent of their GDP on research and development R D despite the commitment to raise their research funding levels contained in the Lagos Plan of Action 1980 Hence reliance on external funding for research persists on the continent To manage research engagements and public funds Science Granting Councils SGCs have been established These institutions are held accountable for how public funds are spent and how the research they fund contributes to the advancement of society To date the SGCs and researchers have demonstrated in various ways how funded research contributes to the advancement of society However there appear to be differences in opinion amongst key stakeholders in terms of what constitutes research priorities as well as expectations in terms of the returns on research investments made This book brings to the fore the importance of research and its outcome on societal development and reveals the stake that African governments hold in the process The book encourages African governments to show greater commitment to providing funding for research on the continent This is critical if governments are to assume a lead role in the continent's development agenda It would also set the stage for partnerships with other stakeholders including industry and funding organisations Researchers are also encouraged to work closely with the SGCs to ensure the valorisation of research products for societal benefit This has a potential to unlock more funding for research in Africa which in turn would drive the development of the continent
