MTA Board Action Items New York (State). Metropolitan Transportation Authority, 1999-07 **Back from the Brink** Peter Moskos, 2025 In New York during the 1980s and early 1990s crime was seen justifiably as out of control Then between 1993 and 1996 New York City's murder rate decreased by fifty percent Back from the Brink is an unofficial police history and narrative of the people and events that made New York City the safest big city in America Peter Moskos a sociologist and former police officer takes readers behind the Blue Wall of the NYPD offering insight into effective law enforcement directly from the police officers who went to war against crime in New York in the 1990s and won Passenger Transport, 1980 Vols for 1947 56 include an unnumbered convention issue called Passenger transport annual title varies Issued 1943 44 as sections of a regular no and 1946 as no 19 of v 4 **The New York Times Index**, 1928 Therapist's Guide to Learning and Attention Disorders Aubrey H Fine, Ronald A. Kotkin, 2003-10-07 Practitioners seeking the most current advances in the field of ADHD and LD must often bridge the gap between research and practice The Therapist's Guide to Learning and Attention Disorders provides that bridge through the authors who are both researchers and practitioners with extensive experience in providing direct services to children and adults with ADHD and LD Practitioners are often faced with the choice of reading research or consulting text that suggest strategies or techniques for serving children and adults with ADHD that are not base on research This book provides practitioners a translation of research to practice in one source This book provides practical forms illustrations and rating scales that can be readily incorporated into practice The last chapter takes a fascinating look into the role of various practitioners twenty years into the future Contains innovative strategies for assessment of ADHD and LD Provides practical and useful illustrations forms and rating scales for use in practice Provides discussions of future practice and developments in the field of ADHD and LD Presents case studies illustrating best practices

Coronavirus Criminals and Pandemic Profiteers John Nichols, 2022-01-25 A furious denunciation of America's coronavirus criminals Hundreds of thousands of deaths were caused not by the vicissitudes of nature but by the callous and opportunistic decisions of powerful people as revealed here by John Nichols On March 10 2020 president Donald Trump told a nation worried about a novel coronavirus We're prepared and we're doing a great job with it And it will go away Just stay calm It will go away It has since been estimated that had Trump simply taken the same steps as other G7 countries 40 percent fewer Americans would have died And it was not just the president His inner circle including Mike Pence and Jared Kushner downplayed the crisis and mishandled the response Cabinet members such as Betsy DeVos and Mike Pompeo undermined public safety at home and abroad to advance their agendas Senators Ron Johnson and Mitch McConnell

governors Kristi Noem and Andrew Cuomo judges such as Wisconsin Supreme Court justice Rebecca Bradley all promulgated public policies that led to suffering and death Meanwhile profiteer Pfizer and anti government propagandists such as Grover Norquist fed at the public trough while the billionaire Jeff Bezos added pandemic profits to a grotesquely bloated fortune John Nichols closes with a call for a version of the Pecora Commission which took aim at what Franklin Delano Roosevelt called the speculation reckless banking class antagonism and profiteering that stoked the Depression There must be accountability

The Wheels That Drove New York Roger P. Roess, Gene Sansone, 2012-08-23 The Wheels That Drove New York tells the fascinating story of how a public transportation system helped transform a small trading community on the southern tip of Manhattan island to a world financial capital that is home to more than 8 000 000 people From the earliest days of horse drawn conveyances to the wonders of one of the world's largest and most efficient subways the story links the developing history of the City itself to the growth and development of its public transit system Along the way the key role of played by the inventors builders financiers and managers of the system are highlighted New York began as a fur trading outpost run by the Dutch West India Company established after the discovery and exploration of New York Harbor and its great river by Henry Hudson It was eventually taken over by the British and the magnificent harbor provided for a growing center of trade Trade spurred industry initially those needed to support the shipping industry later spreading to various products for export When DeWitt Clinton built the Erie Canal which linked New York Harbor to the Great Lakes New York became the center of trade for all products moving into and out of the mid west As industry grew New York became a magnet for immigrants seeking refuge in a new land of opportunity The City's population continued to expand Both water and land barriers however forced virtually the entire population to live south of what is now 14th Street Densities grew dangerously and brought both disease and conflict to the poorer quarters of the Five Towns To expand the City needed to conquer land and water barriers primarily with a public transportation system By the time of the Civil War the City was at a breaking point The horse drawn public conveyances that had provided all of the public transportation services since the 1820s needed to be replaced with something more effective and efficient First came the elevated railroads initially powered by steam engines With the invention of electricity and the electric traction motor the elevateds were electrified and a trolley system emerged Finally in 1904 the City opened its first subway From there the City's growth to northern Manhattan and to the outer boroughs of Brooklyn Queens and the Bronx exploded The Wheels That Drove New York takes us through the present day and discusses the many challenges that the transit system has had to face over the years It also traces the conversion of the system from fully private operations through the elevated railways to the fully public system that exists today and the problems that this transformation has created along the way Unions Flying High Ted Reed, 2025-01-03 Complex and closely watched the U S airline industry has long been a stronghold of union labor Airline unions function as democracies that organize strikes raise concern about important safety issues and back mergers that would not move

forward without their support They use their power to improve workers lives and to enhance safety which can be threatened by corporate over commitment to ensuring profits This book draws from the experience of Miami Herald s former airlines reporter Ted Reed who offers an insider s view of the unions victories losses and larger than life leaders From the beginning of his career in the late 1980s it was evident that covering the airline industry also meant covering the labor unions that represented nearly every group of employees His 30 years of experience have spanned multiple major strikes and other union events and the stories he shares are critical to understanding the role of labor organization in the airline industry Transit Journal ,1942 **Fair Employment Practice Cases** ,1994 With case table *Railway Age* ,1939 **Corporate Culture as the Driver of Transit Leadership Practices** Mary J. Davis,Transit Cooperative Research Program,National Research Council (U.S.).
