Regionalism in East Asia Fu-kuo Liu, Philippe Regnier, 2013-10-18 Regional cooperation and integration have emerged as key issues for East Asia following the financial crisis This book explores these issues and examines the degree to which a new paradigm is emerging It reviews the evolution of the concepts and practices of regionalism in East Asia and considers the factors which are shaping new patterns of regional co operation and integration It includes discussions of historical developments economic co operation socio political factors and defence and security It considers the role of those states including China and Japan which have distinctive approaches to international relations and assesses the role of regional international bodies such as ASEAN **Europe for the Europeans** Christina Schori Liang, 2016-04-29 For the last two decades the number of political organizations on the far right neo populist right and neo conservative right has been growing Along with the mounting electoral success for many of the parties there has also been a growing disenchantment with the political class which has led to a revolt against the current political establishment The events of September 11 2001 and the War on Terror have further aggravated tensions within the populations between those who feel they are the legitimate citizens of the state and those who are considered outsiders The recent expansion of the EU's borders has also brought on fears of a surge of both legal and illegal immigration All these factors have led to a growing number of cases of harassment and outbursts of violence aimed at asylum seekers and ethnic minorities in Europe This book measures the effects of neo populist groups on the current political establishment and illustrates how much political appeal neo populist views have on making current political policy **Sino-Japanese Relations in a Trilateral Context** Yun Zhang, 2016-11-24 This book explains the increasingly turbulent Sino Japanese relations since the 2000s by innovatively investigating the formation

mechanism of mutual misperception deeply rooted in China Japan U S trilateral structural dynamics The political and security relationship has been increasingly deteriorating against the high interdependency between the world s second and third largest economies More ironically both sides have also shown the intent and made efforts to improve bilateral ties The author systematically conducts a focused comparison of the evolution of the Sino Japanese mutual perceptions and policies toward one another during the past decade and a half Empirically Yun Zhang closely examines five case studies that provide insights to IR students and scholars and policy makers on how misperception and mistrust have formed replicated and intensified

Nuclear Proliferation Dynamics in Protracted Conflict Regions Saira Khan,2017-11-01 This title was first published in 2003 Using extensive case studies of the nuclear weapons programmes of India Pakistan Israel Iraq Iran Egypt and Syria this important work shows that a higher than normal probability of war in protracted conflict regions prompts states to search for credible deterrents such as nuclear weapons The book rigorously examines the factors that affect the pace of this proliferation such as regional power structures and geographical proximity and challenges many prevailing theories on proliferation This compelling text convincingly argues that simple conflict relationships are not sufficient for countries to go nuclear thus providing insight into the true complexity of the issue Explaining the similarities and differences between the nuclear policies of states in protracted conflict regions the book commands the attention of anyone interested in nuclear proliferation and regional conflict

Perspectives on International Relations Henry R. Nau,2018-01-03 Perspectives on International Relations Power Institutions and Ideas shows students new to the field how theories perspectives of international affairs realism liberalism constructivism identity and critical theory play a decisive role in explaining every day debates about world affairs Why for example do politicians and political scientists disagree about the causes of the ongoing

conflict in Syria even though they all have the same facts Or why do policymakers disagree about how to deal with North Korea when they are all equally well informed The new Sixth Edition of this best seller includes updates on Brexit the rise of Donald Trump and other populist leaders and continuing developments for ISIS Syria and Russia **The Iraq Crisis and World Order** Ramesh Thakur And Waheguru Pal Singh Sidhu,2007-09 EU Conflict Prevention and Crisis Management Eva Gross,Ana Juncos,2010-12-22 This book offers a comprehensive analysis of long and short term EU conflict prevention and crisis management policies undertaken in various theatres and policy domains featuring case studies on West Africa Afghanistan and the Caucasus **Dangerous Diplomacy** Herman T. Salton,2017-08-04 Dangerous Diplomacy reassesses the role of the UN Secretariat during the Rwandan genocide With the help of new sources including the personal diaries and private papers of the late Sir Marrack Goulding an Under Secretary General from 1988 to 1997 and the second highest ranking UN official during the genocide the book situates the Rwanda operation within the context of bureaucratic and power political friction existing at UN Headquarters in the early 1990s The book shows how this confrontation led to a lack of coordination between key UN departments on issues as diverse as reconnaissance intelligence and crisis management Yet Dangerous Diplomacy goes beyond these institutional pathologies and identifies the conceptual origins of the Rwanda failure in the gray area that separates peacebuilding and peacekeeping The difficulty of separating these two UN functions explains why six decades after the birth of the UN it has still not been possible to demarcate the precise roles of some key UN departments East-Central Europe after the Cold War A. Cottey,1995-10-27 The chapters dealing with the countries security situation are informative an informative work Pal Dunay Deputy Director Hungarian Institute of International Affairs Budapest The book is a detailed examination of the evolution of the national security policies of the countries of East Central Europe Poland the Czech Republic Slovakia and Hungary since the East European revolutions of 1989 It also analyses the Visegrad group regional cooperation process between the East Central European states their relations with the main European security institutions the European Union NATO and the Conference on Security and Cooperation in Europe and their position in the European security order of the 1990s International Organizations and Post-Soviet Conflicts in Georgia, Moldova, and Ukraine Nina Lutterjohann,2024-08-06 International Organizations and Post Soviet Conflicts in Georgia Moldova and Ukraine The Limitations of Imagining Peace and the Failure and Success in Negotiations addresses the protracted history of international conflict resolution efforts to the Georgian Abkhaz Moldovan Transnistrian and Eastern Ukraine conflicts The author explores the origins and onset of these first two conflicts in the early 1990s but also looks at the eruption of conflict in Eastern Ukraine in 2014 and at the first months after the Russian invasion of Ukraine in 2022 This book shows how from a conflict transformation perspective local vested interests and strategic interests have created obvious obstructions that have both fueled the conflicts and prevented their resolution This volume develops a comprehensive theoretical framework for understanding the success and failure of international engagement that offers a new

understanding of the extent to which international responses may or may not be helpful Through an analysis of over 500 closed source documents and about 70 interviews the efforts of pan European international organizations with mandates from the OSCE EU UN and NATO are examined on both political and cultural levels This work s innovative analyses of those institutions performances shows how successes have often been overlooked and identifies misperceptions that reshape our understanding of the limitations to imagining peace

The Globalization of Liberalism E. Hovden, E. Keene, 2016-01-12 The Globalization of Liberalism demonstrates that liberalism is more deeply embedded in the structure of modern international political and economic order than is usually realised and that at present there is a contested process of the globalization of liberalism As well as exploring liberalism s usefulness for understanding how international relations work the contributors offer critical perspectives on the liberal structure of modern international society and places international liberalism into a global context by examining responses to liberalism in China India and the Middle East

The Future of International Relations Iver B. Neumann, Ole Wæver, 2005-06-29 This book presents the state of the art of international relations theory through an analysis of the work of twelve key contemporary thinkers John Vincent Kenneth Waltz Robert O Keohane Robert Gilpin Bertrand Badie John Ruggie Hayward Alker Nicholas G Onuf Alexander Wendt Jean Bethke Elshtain R B J Walker and James Der Derian The authors aim to break with the usual procedure in the field which juxtaposes aspects of the work of contemporary theorists with others presenting them as part of a disembodied school of thought or paradigm A more individual focus can demonstrate instead the well rounded character of some of the leading oeuvres and can thus offer a more representative view of the discipline This book is designed to cover the work of theorists whom students of international relations will read and sometimes struggle with The essays can be read either as introductions to the work of these theorists or as companions to it Each chapter attempts to place the thinker in the landscape of the discipline to identify how they go about studying International Relations and to discuss what others can learn from them

Antisemitism in America Leonard Dinnerstein, 1995-11-02 Is antisemitism on the rise in America Did the Hymietown comment by Jesse Jackson and the Crown Heights riot signal a resurgence of antisemitism among blacks The surprising answer to both questions according to Leonard Dinnerstein is no Jews have never been more at home in America But what we are seeing today he writes are the well publicized results of a long tradition of prejudice suspicion and hatred against Jews the direct product of the Christian teachings underlying so much of America s national heritage In Antisemitism in America Leonard Dinnerstein provides a landmark work the first comprehensive history of prejudice against Jews in the United States from colonial times to the present His richly documented book traces American antisemitism from its roots in

the dawn of the Christian era and arrival of the first European settlers to its peak during World War II and its present day permutations with separate chapters on antisemitism in the South and among African Americans showing that prejudice among both whites and blacks flowed from the same stream of Southern evangelical Christianity He shows for example that non Christians were excluded from voting in Rhode Island until 1842 North Carolina until 1868 and in New Hampshire until 1877 and demonstrates how the Civil War brought a new wave of antisemitism as both sides assumed that Jews supported with the enemy We see how the decades that followed marked the emergence of a full fledged antisemitic society as Christian Americans excluded Jews from their social circles and how antisemitic fervor climbed higher after the turn of the century accelerated by eugenicists fear of Bolshevism the publications of Henry Ford and the Depression Dinnerstein goes on to explain that just before our entry into World War II antisemitism reached a climax as Father Coughlin attacked Jews over the airwaves with the support of much of the Catholic clergy and Charles Lindbergh delivered an openly antisemitic speech to an isolationist meeting After the war Dinnerstein tells us with fresh economic opportunities and increased activities by civil rights advocates antisemitism went into sharp decline though it frequently appeared in shockingly high places including statements by Nixon and his Chairman of the Joint Chiefs of Staff It must also be emphasized Dinnerstein writes that in no Christian country has antisemitism been weaker than it has been in the United States with its traditions of tolerance diversity and a secular national government This book however reveals in disturbing detail the resilience and vehemence of this ugly prejudice Penetrating authoritative and frequently alarming this is the definitive account of a plague that refuses to go away

Positional Realism Wei Song, 2022-11-30 This book adopts the rationalist research path to bring forward an innovative theory of foreign policy and the central question is How can we define the overall national interests of great powers appropriately and thus help states make consistent and rational grand strategies The answer can't be found among existing Foreign Policy Analysis and other theoretical research In this book Positional Realism is proposed as a new theory to define the overall national interests from the power position and order position perspectives and specify the four kinds of positional interests of hegemonic states contending states potential contending states and non contending states Different great powers have different positional power and order objectives Based on these positional interests Positional Realism brings different foreign policy hypotheses and suggestions The book also examines the six great powers in the nineteenth century to verify these hypotheses and finds that Positional Realism can not only convincingly explain the success or failure of their acts but also give useful and important directions for strategy making of great powers
