World Development Indicators 2015 World Bank, 2015-04-10 *World Development Indicators 2015* World Development Indicators 2015 provides a compilation of relevant high quality and internationally comparable statistics about global development and the fight against poverty. It is intended to help policymakers, students, analysts, professors, program managers and citizens find and use data related to all aspects of development including those that help monitor progress toward the World Bank Group's two goals of ending poverty and promoting shared prosperity. Six themes are used to organize indicators: world view, people, environment, economy, states and markets, and global links. As in past editions, *World Development Indicators* reviews global progress toward the Millennium Development Goals (MDGs) and provides key indicators related to poverty. WDI 2015 includes a selection of the most popular indicators across 214 economies and 14 country groups organized into six WDI themes: Thematic and regional highlights providing an overview of global development trends; An in-depth review of the progress made toward achieving the Millennium Development Goals; A user guide describing resources available online and on mobile apps; A complementary online data analysis tool is available this year to allow readers to further investigate global, regional and country progress on the MDGs; data.worldbank.org/mdgs. Each of the remaining sections includes an introduction, six stories highlighting specific global, regional or country trends, and a table of the most relevant and popular indicators for that theme together with a discussion of indicator compilation methodology. WDI DataFinder Mobile App: Download the WDI DataFinder Mobile App and other Data Apps at data.worldbank.org/apps. WDI DataFinder is a mobile app for browsing the current WDI database on smartphones and tablets using iOS, Android and Blackberry, available in four languages: English, French, Spanish and Chinese. Use the app to browse data using the structure of the WDI, visually compare countries and indicators, create, edit and save customized tables, charts and maps, share what you create on Twitter, Facebook and via email.

Annual Report Zimbabwe Investment Authority, *The People in Question* Jo Shaw, 2021-10-13 Questions of citizenship and the role of constitutions in determining its boundaries are under scrutiny in this judicious and accessible analysis from Jo Shaw. [Medium Term Plan Implementation Progress Report](#) Zimbabwe. Ministry of Economic Planning and Investment Promotion. Medium Term Plan, 2012. [Democracy, Elections, and Constitutionalism in Africa](#) Charles M. Fombad, Nico Steytler, 2021-03-18 The third wave of democracy that reached African shores at the end of the Cold War brought with it a dramatic decline from 1990 onwards in dictatorships, military regimes, one party governments and presidents for life. Multiparty democracy was at the core of the constitutional revolutions that swept through most of Africa in those watershed years. However, that wave is either losing momentum or receding or being reversed in its entirety. This volume examines democracy and elections in Africa, a focus motivated by two concerns. First, after 30 years it is important to take stock of the state of constitutional democracy on the continent. The democratic gains of the 1990s and 2000s seem to be falling by the wayside with the evidence mounting that regimes are concealing authoritarianism under the

veneer of elections doing so in an international context where populist regimes are on the rise and free and fair multiparty elections are consequently no longer a given It is becoming a battle to protect and retain constitutional democracy The second reason for this volume s focus on democracy and elections is that multiparty democracy is essential for the proper functioning of the state in addressing the major problems facing Africa internal conflict inequality and lack of development and poor governance and corruption The focus of this volume is thus on how competitive politics or multiparty democracy can be realized and how through competition such politics could lead to better policy and practice outcomes
