Electrician First Year MCQ Manoj Dole, Electrician First Year MCQ is a simple Book for ITI Engineering Course Electrician First Year NSQF Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about safety and environment use of fire extinguishers artificial respiratory resuscitation to begin with He gets the idea of trade tools its standardization identifies different types of conductors cables their skinning joint making Basic electrical laws like Kirchhoff s law ohm s law laws of resistances and their application in different combinations of electrical circuit are practiced along with laws of magnetism The trainee practices on circuit for single phase and poly phase circuits for 3 wire 4 wire balanced unbalanced loads Skilling practice on different types combination of cells for operation and maintenance is being done Wiring practice with installation of different accessories like ICDP switch distribution fuse box and mounting energy meters are practiced as per IE rules for hostel residential building workshop and its fault detection are done by trainee The trainee will practice for pipe plate earthing Different types of light fitting are to be done like HP LP mercury vapour and sodium vapour are prominent The trainee will practice on different types of measuring instruments like multimeter wattmeter energy meter phase sequences meter frequency meter for measurement of electrical parameters in single three phase circuits He will gain skill on range extension calibration and testing of meters Practice for dismantling assembling and testing of heating element equipment induction heating equipment grinding machines and washing machines will be done by trainee Skill will be gained on transformer for operation efficiency series parallel operation replacement of transformer oil

and combination of single phase transformers for 3 phase operation The trainee will practice on winding of small transformer and lots more

Electrician Power Distribution MCQ Manoj Dole, Electrician Power Distribution MCQ is a simple Book for ITI Engineering Course Electrician Power Distribution NSQF Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about Professional Skill Professional Knowledge and Employability Skills related to job role In addition to this a candidate is entrusted to make do project work and Extra Curricular Activities to build up confidence The practical skills are imparted in simple to complex manner simultaneously theory subject is taught in the same fashion to apply cognitive knowledge while executing task The broad components covered under Professional Skill subject are as below

FIRST YEAR The trainee learns about safety and environment use of fire extinguishers practices elementary first aid rescue a person and artificial resuscitation He gets the idea of trade tools its standardization identifies different types of conductors cables their skinning jointing soldering and crimping etc Basic electrical laws like Kirchhoff s law ohm s law laws of resistances and their application in different combinations of electrical circuits are practiced along with laws of magnetism The trainee practices on circuit for single phase and poly phase circuits for 3 wire 4 wire balanced unbalanced loads and working with analog and digital measuring instruments The trainee work with different electronic components circuits and analyze waveforms in CRO The trainee learns about testing and maintenance of batteries and solar cell Wiring practice with installation of different accessories like ICDP switch distribution fuse box and mounting energy meters are practiced as per IE rules and its fault detection is done by trainee Different types of light fitting are to be done like fluorescent tube HP sodium vapour lamp LEDs and their fixtures He learns Practice reading of power and control schematic drawings of motors and starters Operation testing and maintenance of induction motors alternators and synchronous motors are practiced The trainee learns to perform auto tuning and operation of AC drives Learns to repair and installation of inverter stabilizer battery charger and UPS

SECOND YEAR The trainee practices on control cabinet wiring and testing of control elements Understands power generation transmission and distribution network He identifies various substation equipment viz isolators over current relays earth fault relay differential relay REF relay lightening arresters Surge counter wave trap Reactor Capacitor bank Circuit breakers ACB SF 6 and VCB etc Practices operation and maintenance of isolators circuit breakers and other equipments used in distribution substations Skill will be gained on transformer for operation maintenance and functional tests viz open circuit short circuit IR PI induced voltage BDV of transformer oil etc He practices on LT HT cable jointing laying of cables tests and fault finding of underground cables The trainee learns to install test repair and replace Current and Potential transformers used in distribution substations The trainee practices for pipe plate and meshearthring and carries out maintenance of earth system Identifies various conductors ACSR AAC ABC and cable insulation Practices on joining of overhead line conductors erection of poles fitting of accessories and commissioning of distribution line He learns to monitor meter readings reading of MRI reports generating electricity bills using SBM and

maintaining log sheets at substations Practices isolation and switching procedure lock out tag out system settings of relays examine faults in control room and repair substation equipment and panels The Trainee also learns and practices on fire fighting equipment used in substations ITI Mechanic Auto Electrical and Electronics Manoj Dole, ITI Mechanic Auto Electrical Electronics is a simple e Book for ITI Mechanic Auto Electrical Electronics MAEE JOB Interview Apprentice Exam It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about Apply safe working practices in an automotive work shop environment regulations and housekeeping in the work shop Perform precision measurements on the components and compare parameters with specifications used in automotive work shop practices Electrician Answers Manoj Dole, ELECTRICIAN Industrial Training is a simple e Book with all about the latest Important Electrical Machines Hand Tools Instruments used in Electrical Engineering ITI courses like Electrician Wireman It contains objective questions with underlined bold correct answers covering all topics including Electrical Machines Hand Tools Measuring Instruments Accessories and lots more We add new question answers with each new version Please email us in case of any errors omissions This is arguably the largest and best e Book for All engineering multiple choice questions and answers As a student you can use it for your exam prep This e Book is also useful for professors to refresh material *Electrician Second Year MCQ* Manoj Dole, Electrician Second Year MCQ is a simple Book for ITI Engineering Course Electrician Second Year NSQ F Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about electrical rotating machines viz DC machines induction motors alternators MG sets and practice on them The trainee will practice on determining characteristics their performance analysis starting speed control and reversing direction of rotation of machines He will practice on parallel operation synchronization of alternators winding practice and over hauling will be practiced for DC machine and induction motors diodes for bridge rectifier switching devices amplifiers by electronic components different wave shape generation and testing by CRO Designing control cabinet assembling control elements and their wiring are to be practiced Speed control of AC DC motors by electronic controller will be practiced The trainee will practice on testing analyzing and repairing of voltage stabilizer emergency light battery charger UPS and inverter He will gain knowledge of thermal hydel solar wind energy systems distribution system domestic service line and accessories their protection by practicing on relay and circuit breaker and lots more *ITI Textile Mechatronics* Manoj Dole, ITI Textile Mechatronics is a simple e Book for ITI Textile Mechatronics JOB Interview Apprentice Exam It contains objective questions with underlined bold correct answers MCQ covering all topics including all about electrical electronic measurement panel wiring using cable connectors protective devices and test functionality different electrical sub system control wiring system electrical and magnetic circuits maintenance of alternator AC Motors Transformer and Starters soldering and desoldering of various electronic and industrial appliances different electrical wiring winding methods of different electrical sub system **Information Technology MCQ** Manoj Dole,

Information Technology MCQ is a simple Book for ITI Engineering Course Information Technology It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about Information Technology trade a candidate is trained on professional skill professional knowledge and Engineering Drawing Workshop Calculation Science and Employability skill related to job role In addition to this a candidate is entrusted to undertake project work and extracurricular activities to build up confidence The broad components covered under Professional Skill subject are as below

FIRST YEAR In this year the trainee learns about safety and environment use of various trade tools safety measures involved in the industry Gain basic knowledge of Electrical and Electronic components related to Computer and Networking system They learn about assembling and servicing of Desktop computer hardware components Trainee learns about Installing UNIX LINUX other operating system with application software and Adding new users software material components Identification of laptop sections and connectors Assembling and disassembling a Laptop troubleshooting Latest Tools Gadgets for Desktop Laptop Repairs They learn to install and use different types of printers Scanner MFD Scanner Trainees are able to install and configuration Monitor display card and driver front panel controls and settings Practice on Backup Drives Maintenance and Troubleshooting of PC They can also assemble disassemble of Tablet Smart Devices The trainee learns to work on MS office package word excel power point outlook They learn to design graphics using Adobe Page maker Corel draw and Adobe Photoshop Trainees are able to create email account chat and browse through internet and Microsoft Outlook Express They learn to design and develop web pages using HTML They perform create and record various formats of multimedia audio and video files using digital audio and video editor tools Trainees are able to create customized database files using Microsoft Access and Visual Basic

SECOND YEAR In this year the trainee learns Network fundamentals They also learn to set up and configuring Networking System using various network devices Trainees are able to configure Data communication equipment Network Protection and troubleshooting Server Installation managing Server Network Security Linux Server installation and configuration Network Security The trainee learns about image editing and graphic design using Adobe Illustrator and Flash video and audio editing using Adobe Premier They learns to create graphics animation using Adobe after Effects and 3Ds Max They learn to design webpage using Front Page also use HTML and PHP embedding VBScript JavaScript and publish in a local server They will learn basic python based coding and programming They learn about functions operators expressions priorities bindings strings list modules errors and etc Trainees are also learn to use Dreamweaver and also on practice on Open Source Tools for Web Designing and Information Security Vulnerabilities We add new question answers with each new version Please email us in case of any errors omissions This is arguably the largest and best e Book for All engineering multiple choice questions and answers As a student you can use it for your exam prep This Book is also useful for professors to refresh material

Wireman First Year MCQ Manoj Dole, Wireman First Year MCQ is a simple Book for ITI Engineering Course Wireman First Year NSQF Syllabus

It contains objective questions with underlined bold correct answers MCQ covering all topics including all about safety and environment use of fire extinguishers artificial respiratory resuscitation to begin with He gets the idea of planning preparing good quality electrical wire joints for single and multi stand conductors suitable for applications with soldering and taking suitable care and safety The trainee will be able to draw and set up DC and AC circuits including R L C circuits with accurate measurement of voltage current resistance power power factor and energy using ammeter voltmeter ohm meter watt meter energy meter power factor meter and phase sequence tester with proper care and safety plan draw estimate material wire up and test different type of domestic wiring circuits as per Indian Electricity rules and taking care of quality Construction and working of MCB ELCB Test a domestic wiring installation using Megger The trainee will identify the type of batteries construction working and application of Ni cadmium lithium cell lead acid cell etc Demonstrate their charging and discharging choosing appropriate method and carryout the installation and routine maintenance with due care and safety He will plan select to carry out basic jobs of marking out the components for filing drilling and riveting fitting and assembled using different components independently plan and install Pipe Plate earthing Measure earth resistance by earth tester select and perform electrical electronic measurements with appropriate instrument He should plan and execute electrical illumination system viz FL tube HPMV lamp HPSV lamp Halogen metal halide lamp CFL LED lamp etc plan draw estimate material wire up and test different type of industrial wiring circuits as per Indian Electricity rules and taking care of quality He will be able to plan draw estimate material wire up and test different type of commercial and computer networking wiring circuits as per Indian Electricity rules and taking care of quality and lots more

ITI Technician Power Electronics Systems Manoj Dole, ITI Technician Power Electronics Systems is a simple e Book for ITI Power Electronics Systems JOB Interview Exam It contains objective questions with underlined bold correct answers MCQ covering all topics including all about safety and environment use of fire extinguisher trade tools its standardization familiarize with basics of electricity test the cable and measure the electrical parameter maintenance of batteries active electronic components soldering and de soldering of various types of electrical and electronic components

2024-25 Rajsthan AEN/JEN Previous Solved Papers YCT Expert Team , 2024 25 Rajsthan AEN JEN Previous Solved Papers 400 795 E This book contains 26 sets of the previous solved papers with detail explanation and certified answer key Electrician Trade Theory : For ITI Course: complete 2 years course: Strictly as per NIMI Pattern and NSQF 5 Syllabus Anoop Bharadwaj,2021-05-03 best electrician theory book based on NSQF 5 pattern This books covers week by week part syllabus and includes ample number of mcqs for practice This is the most useful book for students of iti electrician courses and is upto the mark with the latest syllabus

Wireman Second Year MCQ Manoj Dole, Wireman Second Year MCQ is a simple Book for ITI Engineering Course Wireman Second Year NSQF Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about to construct and test Half wave full wave and bridge rectifiers with filter without filter He will be

able to identify the constructional features working principles of DC machine Starting with suitable starter running forward and reverse operation and speed control of DC motors Conduct the load performance test of DC machine with due care and safety Maintain and troubleshoot of DC machines He will recognise the constructional features working principles of single phase and 3 phase AC motors Starting with suitable starter running forward and reverse operation and speed control of AC motors with due care and safety He should be able to identify the constructional features working principles of Alternator set Test Wire up and run alternator Synchronization of Alternator with due care and safety identify the types constructional features working principles of transformer single three phase Connect and test Transformer He should be able to prepare single line diagram and layout plan of electrical transmission distribution systems and power plants with knowledge of principle applied Make and test power connection to substation equipments with care and safety He will select assemble test and wire up control panel plan estimate and costing of different types of wiring system as per Indian Electricity rule and lots more

Electronics Mechanic First Year MCQ Manoj Dole, Electronics Mechanic First Year MCQ is a simple Book for ITI Engineering Course Electronics Mechanic First Year Revised NSQF Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about safety and environment use of fire extinguishers artificial respiratory resuscitation to begin with He gets the idea of trade tools its standardization Familiarize with basics of electricity test the cable and measure the electrical parameter Skilling practice on different types combination of cells for operation and maintenance of batteries being done Identify and test passive and active electronic components Construct and test unregulated and regulated power supplies Practice soldering and de soldering of various types of electrical and electronic components on through hole PCBs Assemble a computer system install OS Practice with MS office Use the internet browse create mail IDs download desired data from internet using search engines construct and test amplifier oscillator and wave shaping circuits Testing of power electronic components Construct and test power control circuits Identify and test opto electronic devices Able to achieve the skill on SMD Soldering and De soldering of discrete SMD components Verifying the truth tables of various digital ICs by referring Data book Practice circuit simulation software to simulate and test various circuits Identify various types of LEDs LED displays and interface them to a digital counter and test Construct and test various circuits using linear ICs 741 555 and lots more

ITI Electrician Manoj Dole, ITI Electrician is a simple e Book for ITI Electrician JOB Interview Exam It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about safety and environment use of fire extinguishers trade tools its standardization identifies different types of conductors cables their skinning joint making Kirchhoff s law ohm s law laws of resistances single phase and poly phase circuits for 3 wire 4 wire balanced unbalanced loads ICDP switch distribution fuse box and mounting energy meters HP LP mercury vapour and sodium vapour light measuring instruments like multimeter

ITI Wireman Manoj Dole, ITI Wireman is a simple e Book for ITI Wireman JOB

Interview Apprentice Exam It contains objective questions with underlined bold correct answers MCQ covering all topics including all about electrical wire joints DC and AC circuits including R L C circuits with accurate measurement of voltage current resistance power power factor and energy using ammeter voltmeter ohm meter watt meter energy meter power factor meter and phase sequence tester basic jobs of marking out the components for filing drilling and riveting fitting type of batteries Pipe Plate earthing Measure earth resistance by earth tester different type of domestic wiring *Wireman* Manoj Dole, 2018-12-13 Wireman is a simple e Book for ITI Engineering Course Wireman Sem 1 2 Revised Syllabus in 2018 It contains objective questions with underlined bold correct answers MCQ covering all topics including all about electrical wire joints DC and AC circuits including R L C circuits with accurate measurement of voltage current resistance power power factor and energy using ammeter voltmeter ohm meter watt meter energy meter power factor meter and phase sequence tester basic jobs of marking out the components for filing drilling and riveting fitting type of batteries Pipe Plate earthing Measure earth resistance by earth tester different type of domestic wiring circuits working of MCB ELCB domestic wiring installation using Megger Indian Electricity rules commercial and computer networking wiring circuits electrical illumination system viz FL tube HPMV lamp HPSV lamp Halogen metal halide lamp CFL LED lamp Half wave full wave and bridge rectifiers with filter without filter starter running forward and reverse operation and speed control of DC motors Wire up and run alternator transformer single three phase single line diagram and layout plan of electrical transmission distribution systems and power plants wire up control panel Plan estimate and costing of different types of wiring system as per Indian Electricity rule and lots more Wood Work Technician MCQ Manoj Dole, Wood Work Technician MCQ is a simple Book for ITI rectifies defects if any and finishes it to required specifications Alters repairs or replaces components in case of old structures or articles in similar manner May glue parts together May smoothen and finish surface with sandpaper and polish May fix metal fittings to structure and polish May fix metal fittings to structure or article made May calculate cost of furniture May sharpen his own tools Carpenter Construction Carpenter Building makes assembles alters and repairs doors windows frames and other wooden fixtures of building using hand or power tools or both Studies drawings or samples and calculates quantity of timber required Saws oversize pieces by power or hand tools or collects lumbers for making various components Plans two sides of above pieces marks off dimensions using tri square scribe pencil etc and reduces them to required sizes by adzing sawing and planning Marks off different members cuts them as required and shapes and makes Tenon and mortise half lap and other joints by sawing chiselling drilling and filling Checks pieces frequently while sizing and shaping to ensure correctness Assembles framework step by step by gluing cramping dowelling nailing and screwing as required Examines finished article for accuracy Fits metal rods hinges etc to wood work where necessary and rectifies defects in fittings if any Sharpens his own tools May erect scaffoldings if necessary and lots more
