

Classroom Observation and Reflection Paper

Classroom Observation and Reflection Paper MTE/501 The Art of Science and Teaching Regis Lawrence For my classroom observation I had the opportunity of sitting in on a first grade regular education classroom. Listed below are the following that relates to the teacher's classroom design. Teacher's educational goals I asked for the teachers educational goals and wasn't surprised that our goals shared some of the same objectives. In terms of teaching she wanted to provide the best education possible and go over and beyond the call of duty to make that a reality, without excuses. Should a student need additional tutorial assistance due to performing below grade level she would set up a schedule to make those accommodations. ...show more content...

Keeping the standards in a designated area is there for anyone (administator) to come into the class and see what you are working on. Each day she would have a student read the standard that would be covered that day. The learning objectives were kept in plain sight on a sentence strip. Teaching Methods Throughout the lesson she would walk around and interact with the students to make should they were on task and understanding the assignment. She provided visual aids to assist in the lesson and allowed students to pair with each other in order to provide extra help. Students had to sit up straight in class and track the teacher while she was at the board during whole group instruction. One thing I really loved because its someshing I do in my classroom. All students were required to raise their hands when asked a respond to a question regarding the lesson. Use of technology as a resource It is really amazing how excited students get with the possibility of using the computer in the classroom to assist them with their lesson. The teacher added that she uses it as a reward system, stating how affective it is in maintaining order and control in the classroom. Students knew how to navigate, go to various websites that were related to the lesson and create a folder in which to put their assignments in. .

A State of Play Steven Fielding,2014-04-24 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com A State of Play explores how the British have imagined their politics from the parliament worship of Anthony Trollope to the cynicism of *The Thick of It* In an account that mixes historical with political analysis Steven Fielding argues that fictional depictions of politics have played an important but insidious part in shaping how the

British think about their democracy and have helped ventilate their many frustrations with Westminster. He shows that dramas and fictions have also performed a significant role in the battle of ideas in a way undreamt of by those who draft party manifestos. The book examines the work of overtly political writers who have treated the subject, discussing the novels of H. G. Wells, the comedy series *Yes Minister* and the plays of David Hare. However, it also assesses how less obvious sources such as the films of George Formby, the novels of Agatha Christie, the *Just William* stories and situation comedies like *Steptoe and Son* have reflected on representative democracy. *A State of Play* is an invaluable, distinctive and engaging guide to a new way of thinking about Britain's political past and present.

The Practice of University History Teaching Alan Booth, Paul Hyland, 2000. This work provides a guide to good practice and its development in the teaching and learning of history in universities and colleges. It examines recent thinking on the teaching of the subject, surveys practices and provides advice to teachers.
