Early Modern English Marginalia Katherine Acheson, 2018-12-17 Marginalia in early modern and medieval texts printed handwritten drawn scratched colored and pasted in offer a glimpse of how people as individuals and in groups interacted with books and manuscripts over often

lengthy periods of time The chapters in this volume build on earlier scholarship that established marginalia as an intellectual method Grafton and Jardine as records of reading motivated by cultural social theological and personal inclinations Brayman Hackel and Orgel and as practices inspired by material affordances particular to the book and the pen Fleming and Sherman They further the study of the practices of marginalia as a mode a set of ways in which material opportunities and practices overlap with intellectual social and personal motivations to make meaning in the world They introduce us to a set of idiosyncratic examples such as the trace marks of objects left in books deliberately or by accident cut and pasted additions to printed volumes a marriage depicted through shared book ownership They reveal to us in case studies the unique value of marginalia as evidence of phenomena as important and diverse as religious change authorial self invention and the history of the literary canon The chapters of this book go beyond the case study however and raise broad historical cultural and theoretical questions about the strange marvelous metamorphic thing we call the book and the equally multiplicitous eccentric and inscrutable beings who accompany them through history readers and writers *Correct English and Current Literary Review ...*,1913 The Excitement of Verbal Adventure: A Study of Vladimir Nabokov's English Prose J?rgen
