A poetic and nuanced exploration of the human experience of flight that reminds us of the full imaginative weight of our most ordinary journeys and reawakens our capacity to be amazed The twenty first century has relegated airplane flight a once remarkable feat of human ingenuity to the realm of the mundane Mark Vanhoenacker a 747 pilot who left academia and a career in the business world to pursue his childhood dream of flight asks us to reimagine what we both as pilots and as passengers are actually doing when we enter the world between departure and discovery In a seamless fusion of history politics geography meteorology ecology family and physics Vanhoenacker vaults across geographical and cultural boundaries above mountains oceans and deserts through snow wind and rain renewing a simultaneously humbling and almost superhuman activity that affords us unparalleled perspectives on the planet we inhabit and the communities we form
