Guide to College Writing Assessment Peggy O'Neill, Cindy Moore, Brian Huot, 2009-04-15 While most English professionals feel comfortable with language and literacy theories assessment theories seem more alien English professionals often don't have a clear understanding of the key concepts in educational measurement such as validity and reliability nor do they understand the statistical formulas associated with psychometrics But understanding assessment theory and applying it by those who are not psychometricians is critical in developing useful ethical assessments in college writing programs and in interpreting and using assessment results A Guide to College Writing Assessment is designed as an introduction and source book for WPAs department chairs teachers and administrators Always cognizant of the critical components of particular teaching contexts O'Neill Moore and Huot have written sophisticated but accessible chapters on the history theory application and background of writing assessment and they offer a dozen appendices of practical samples and models for a range of common assessment needs Because there are numerous resources available to assist faculty in assessing the writing of individual students in particular classrooms A Guide to College Writing Assessment focuses on approaches to the kinds of assessment that typically happen outside of individual classrooms placement evaluation exit examination programmatic assessment and faculty evaluation Most of all the argument of this book is that creating the conditions for meaningful college writing assessment hinges not only on understanding the history and theories informing assessment practice but also on composition programs availing themselves of the full range of available assessment practices

The Learning Portfolio
John Zubizarreta, 2009-12-22 The learning portfolio is a powerful complement to traditional measures of student achievement and a widely diverse method of recording intellectual growth This second edition of this important book offers new samples of print and electronic learning portfolios An academic understanding of and rationale for learning portfolios and practical information that can be customized Offers a review of the value of reflective practice in student learning and how learning portfolios support assessment and collaboration Includes revised sample assignment sheets guidelines criteria evaluation rubrics and other material for developing print and electronic portfolios

Student Self-Evaluation: Fostering Reflective Learning Jean MacGregor, 1993 For several decades college teachers have been asking students to engage in self evaluation to reflect on their academic work and describe and evaluate it in writing Student self evaluation is both a process consisting of acts of reflecting composing and writing and a product a written document Student self evaluation does not obviate the need for student exams and papers crucial indicators of student mastery of material or complexity of thinking Rather student self evaluation supplements and complements that information by asking students to describe in their own words their learning and its value to them This writing and the conversations that faculty members and students have about it can be instructional illuminating and at times transformative Student self evaluation is primarily a learning strategy but it is also a promising assessment approach while enriching learning for students it also can help teachers and institutions learn about

student learning This volume of New Directions for Teaching and Learning introduces the many forms of student self evaluation in undergraduate teaching settings and describes how student self evaluation creates connections between learners and learning knowers and the known and the self and the mind This is the 56th issue of the quarterly journal New Directions for Teaching and Learning For more information on the series please see the Journals and Periodicals page

Improving Outcomes Diane Kelly-Riley, Norbert Elliot, 2020-12-01 Students thrive when they are exposed to a variety of disciplinary genres and their lives and our institutions are enriched by improving their writing outcomes Taking account of evolving research writing in the disciplines and demographic and institutional shifts in higher education this volume imagines new ways to improve writing outcomes by broadening the focus of assessment to wider issues of humanity and society The essays by contributors from diverse fields from writing studies to nursing engineering and architecture demonstrate innovative classroom practices and curricular design that place fairness and the situatedness of language at the center of writing instruction Contributors reflect on a wide range of examples from a disability as insight model to reckoning with postcolonial legacies and the essays consider a variety of institutions classrooms and types of assessment including culturally responsive assessment and peer feedback in digital environments *Assessing Academic Programs in Higher Education*

Mary J. Allen, 2003-12-15 Higher education professionals have moved from teaching to learning centered models for designing and assessing courses and curricula Faculty work collaboratively to identify learning objectives and assessment strategies set standards design effective curricula and courses assess the impact of their efforts on student learning reflect on results and implement appropriate changes to increase student learning Assessment is an integral component of this learner centered approach and it involves the use of empirical data to refine programs and improve student learning Based on the author's extensive experience conducting assessment training workshops this book is an expansion of a workshop consultation guide that has been used to provide assessment training to thousands of busy professionals *Assessing Academic Programs in Higher Education* provides a comprehensive introduction to planning and implementing the assessment of college and university academic programs Written for college and university administrators assessment officers department chairs and faculty who are involved in developing and implementing assessment programs this book is a realistic pragmatic guide for developing and implementing meaningful manageable and sustainable assessment programs that focus faculty attention on student learning This book will Guide readers through all steps in the assessment process Provide a balanced review of the full array of assessment strategies Explain how assessment is a crucial component of the teaching and learning process Provide examples of successful studies that can be easily adapted Summarize key assessment terms in an end of book glossary **Assessment, Learning and Judgement in Higher Education** Gordon Joughin, 2008-12-11 There has been a remarkable growth of interest in the assessment of student learning and its relation to the process of learning in higher education over the past ten years This interest has been expressed in various ways through large scale research

projects international conferences the development of principles of assessment that supports learning a growing awareness of the role of feedback as an integral part of the learning process and the publication of exemplary assessment practices At the same time more limited attention has been given to the underlying nature of assessment to the concerns that arise when assessment is construed as a measurement process and to the role of judgement in evaluating the quality of students work It is now timely to take stock of some of the critical concepts that underpin our understanding of the multifarious relationships between assessment and learning and to explicate the nature of assessment as judgement Despite the recent growth in interest noted above assessment in higher education remains under conceptualized This book seeks to make a significant contribution to conceptualizing key aspects of assessment learning and judgement *The NPEC sourcebook on assessment* ,
