A Plague of Prisons Ernest Drucker, 2013-05-28 The public health expert and prison reform activist offers meticulous analysis on our criminal justice system and the plague of American incarceration The Washington Post An internationally recognized public health scholar Ernest Drucker uses the tools of epidemiology to demonstrate that incarceration in the United States has become an epidemic a plague upon our body politic He argues that imprisonment originally conceived as a response to the crimes of individuals has become mass incarceration a destabilizing force that damages the very social structures that prevent crime Drucker tracks the phenomenon of mass incarceration using basic public health concepts incidence and prevalence outbreaks contagion transmission potential years of life lost The resulting analysis demonstrates that our unprecedented rates of incarceration have the contagious and self perpetuating features of the plagues of previous centuries Sure to provoke debate and shift the paradigm of how we think about punishment A Plague of Prisons offers a novel perspective on criminal justice in twenty first century America How did America s addiction to prisons and mass incarceration get its start and how did it spread from state to state Of the many attempts to answer this question none make as much sense as the explanation found in this book The Philadelphia Inquirer

Corrections Michael Welch, 2013-10-14 Corrections A Critical Approach 3rd edition confronts mass imprisonment in the United States a nation boasting the highest incarceration rate in the world This statistic is all the more troubling considering that its correctional population is overrepresented by the poor African Americans and Latinos Not only throwing crucial light

Roberts, 2011-08-25 This innovative volume explores a fundamental issue in the field of sentencing the factors which make a sentence more or less severe All sentencing systems allow courts discretion to consider mitigating and aggravating factors and many legislatures have placed a number of such factors on a statutory footing Yet many questions remain regarding the theory and practice of mitigation and aggravation Drawing on legal and sociological perspectives and examining mitigation and aggravation in various jurisdictions the essays provide practical illustrations of specific factors as well as theoretical justifications After the foreword by Andrew von Hirsch a number of contributors address broad conceptual issues raised at sentencing These contributions are followed by several empirical chapters including an exploration of personal mitigation in English courts The authors are leading scholars from a range of common law jurisdictions including England and Wales the United States Canada Australia New Zealand and South Africa

The American Prison Francis T. Cullen, Cheryl Lero Jonson, Mary K. Stohr, 2013-04-11 For the first time in four decades prison populations are declining

and politicians have reached the consensus that mass imprisonment is no longer sustainable At this unique moment in the history of corrections the opportunity has emerged to discuss in meaningful ways how best to shape efforts to control crime and to intervene effectively with offenders *The American Prison Imagining a Different Future* by Francis T Cullen Cheryl Lero Johnson and Mary K Stohr pulls together established correctional scholars to imagine what this prison future might entail Each scholar uses his or her expertise to craft in an accessible way for students to read a blueprint for how to create a new penology along a particular theme For example one contributor writes about how to use existing research expertise to create a prison that is therapeutic and another provides insight on how to create a feminist prison In the final chapter the editors pull together the lessons learned in a cohesive comprehensive essay *Reaffirming Rehabilitation* Francis T. Cullen, Karen E. Gilbert, 2013 *Reaffirming Rehabilitation* 2nd Edition brings fresh insights to one of the core works of criminal justice literature This groundbreaking work analyzes the rehabilitative ideal within the American correctional system and discusses its relationship to and conflict with political ideologies Many researchers and policymakers rejected the value of rehabilitation after Robert Martinson's proclamation that nothing works Cullen and Gilbert's book helped stem the tide of negativism that engulfed the U S correctional system in the years that followed the popularization of the nothing works doctrine Now Cullen traces the social impact on U S corrections policy This new edition is appropriate as a textbook in corrections courses and as recommended reading in related courses It also serves as a resource for researchers and policymakers working in the field of corrections
