Votava, Jeanne M. Hauch, Francesco Clementucci, 2018-08-07 Natural resources have the transformational potential to support economic and political stability as well as contribute to national prosperity and economic development. However, in countries dependent upon natural resource sectors, poor management of these sectors often contributes to corruption, illicit financial flows, IFFs, and thus poverty. Adequate transparency and accountability in regulatory management of these sectors is a challenge for resource-rich countries. Poor licensing decisions in natural resource management can open a Pandora's box of corruption risks. This manual provides methods and options based on good practices to improve transparency, accountability, and integrity in the regulatory licensing process and integrity due diligence. The manual borrows models from the Basel Core Principle fit and proper concept and provides options for conducting effective beneficial ownership, criminal legal, and conflicts of interest checks with a goal of integrating these into the regulatory licensing process. The manual also identifies common legal framework defects that can facilitate corruption risks and offers options based on principles of regulatory integrity to reduce these risks. The good practices identified can help countries allocate limited financial resources in conducting thorough background checks in a cost-effective manner as well as meet EITI's requirements for public disclosure of beneficial owners and politically exposed persons. These strategies for reducing opportunities for corruption in extractive sectors can help reduce IFFs that can sap resources from the economy and inhibit a country's ability to achieve the Sustainable Development Goals.

Reference Catalogue of Current Literature, 1888 Sittig's Handbook of Pesticides and Agricultural Chemicals Stanley A. Greene, 2013-10-22 Sittig's Handbook of Pesticides and Agricultural Chemicals is specifically designed for use by those engaged in the agricultural and food processing industries, both vital to our nation's health and economy. People in every phase of food production, from the farm to the fork, will find a wealth of material here. It will also be of interest to professionals in the pharmaceutical, cosmetics, and personal care industries who use agricultural products as ingredients. It provides crop chemical regulatory health and safety information on nearly 800 pesticides, fertilizers, and other agricultural chemicals. These chemicals are organized with unique identifiers so that all who may have contact with or interest in them can find critical information quickly.

Sittig's Handbook of Pesticides and Agricultural Chemicals Richard P. Pohanish, 2014-09-06 This reference handbook provides fully updated chemical regulatory health and safety information on nearly 800 pesticides and other agricultural chemicals. The clear, consistent, and comprehensive presentation of information makes Sittig's an essential reference for a wide audience, including first responders, environmental and industrial health safety professionals, the food industry, the agricultural sector, and toxicologists. Detailed profiles are provided for each substance listed, including usage, crop-specific residue limits, hazard ratings for long-term human toxicity, and endocrine disruptor and reproductive toxicity information. Every chemical profile contains references and web links to source information from the EPA, OSHA, the World Health Organization (WHO), and other important advisory and lawmaking bodies. This work is focused on regulated chemicals. The substances covered include pesticides, insecticides, herbicides, fungicides,

rodenticides and related agricultural chemicals used on foods grown and produced for both human and animal consumption These products are organized with common names chemical synonyms trade names chemical formulae US EPA pesticide codes EU regulations including Hazard Symbol and Risk Phrases EINECS RTECS CAS and other unique identifiers so that all who may have contact with or interest in them can find needed information quickly A comprehensive reference for the agricultural sector food industry agrochemical manufacturing and distribution sector and first responders Brings together a wealth of hazard and response regulatory and toxicological information in one convenient go to handbook Covers US EU and worldwide regulatory requirements **Sittig's Handbook of Toxic and Hazardous Chemicals and Carcinogens**

Richard P. Pohanish,2008-01-10 For more than a quarter century Sittig s Handbook of Toxic and Hazardous Chemicals and Carcinogens has proven to be among the most reliable easy to use and essential reference works on hazardous materials Sittig s 5th Edition remains the lone comprehensive work providing a vast array of critical information on the 2 100 most heavily used transported and regulated chemical substances of both occupational and environmental concern Information is the most vital resource anyone can have when dealing with potential hazardous substance accidents or acts of terror Sittig s provides extensive data for each of the 2 100 chemicals in a uniform format enabling fast and accurate decisions in any situation The chemicals are presented alphabetically and classified as a carcinogen hazardous substance hazardous waste or toxic pollutant This new edition contains extensively expanded information in all 28 fields for each chemical see table of contents and has been updated to keep pace with world events Chemicals classified as WMD have been included in the new edition as has more information frequently queried by first responders and frontline industrial safety personnel Includes and references European chemical identifiers and regulations The only single source reference that provides such in depth information for each chemical The two volume set is designed for fast and accurate decision making in any situation The Nurse Educators Guide to Assessing Learning Outcomes Mcdonald,2017-07-28 The Nurse Educator s Guide to Assessing Learning Outcomes Fourth Edition is a widely used resource for both faculty and nursing education students that covers the assessment of critical thinking the development of learning objectives and the creation of tests including detailed tips for writing many kinds of individual test items The book also covers the analysis of test reliability Important Notice The digital edition of this book is missing some of the images or content found in the physical edition **The Best Books** William Swan Sonnenschein,1912 *The Evening continuation school code handbook* Charles Henry Wyatt,1896 Travels in the Interior of Africa ...
