BUSINESS
COMMUNICATION Dr. Seema Zagade, Dr. Gauri Dhingra, R. Gomathy, Dr. S. Saravanan, Dr. M. Abirami, *Resume Writing Secrets* Anthony Ekanem, 2016-10-15 Everyone in the business world knows that having a good strong resume can mean the difference between getting a job and not getting a job You will need to have a resume that is crafted professionally and that will reflect you your job abilities and your experience Having a good looking resume is so important when you are searching for a job that it should be your number one priority There are all sorts of ways you can go about crafting a resume that works but there is no magic formula for a resume that will work all the time The choice really is up to you how you put together a resume but there are certain nuances that you will need to be included in your resume that every employer looks for It is not difficult to put together a resume that works but it is important that you not overlook what makes your resume most effective This one or two page document speaks about you your abilities your experience your education and your accomplishments It is the first thing that a potential employer will see before he or she meets you so you want it to really be compelling and make them want to pick up the phone and call you for an interview There are all sorts of schools of thought regarding how a resume should look what information it should contain and how to put it together However most business people agree that

when they look at a resume of a potential employee they want the resume to be concise to the point and easy to read. Whichever school of thought you as a job seeker subscribe to, you will still want your resume to be what a potential employer wants to see.
