WHAT IS OCCUPATIONAL THERAPY?
Occupational therapy is a service in a school that is designed to help students develop the necessary skills to succeed and become more independent in their educational environment. Occupational therapists work with students to address various needs, such as fine motor skills, social skills, organization, self-management skills, self-care, and learning strategies. Students demonstrate these skills by using tools to write, drawing, communicating, listening, counting, using a pencil to grip, and using a ruler to draw, making a graph, following directions, etc.
