Price, N. Thibault, M. Wagreich, I. Walaszczyk, 2025-04-02 The Cretaceous was first mentioned in the legend of a geological map largely centred on France published in 1822 by Jean Baptiste Julien d Omalius d Halloy Two hundred years of research have demonstrated that the Cretaceous records some of the highest sea levels atmospheric temperatures and extreme events in Earth history It was also a time of significant palaeogeographical changes and continental fragmentation This volume draws together a collection of papers that demonstrate these particularly Cretaceous events of warm climates sea level change and the impact of major volcanic events on the fauna and flora of the time Geochemical and stable isotope data are used to interpret these changing environments and their impact on the Cretaceous ecosystem The volume closes with a description of the recent drilling of the Chicxulub bolide impact site **The Legacy of the Mastodon** Keith Stewart

Tanner,2017-11-16 This volume presents the latest science on all significant geological and paleontological aspects of the Earth during the Late Triassic Period Rather than presenting a collection of narrowly focused research papers the volume consists of a series of peer reviewed chapters on specific aspects of the Late Triassic world e g tectonics magmatism paleobotany climate etc all authored by experts in the subject of their respective chapters Each chapter reviews and summarizes the latest findings in these fields and also includes a review of the pertinent literature The author list is very broadly international and forms a veritable who's who of expertise in these fields The book is loosely organized to present the physical aspects of Earth during the Late Triassic at the outset followed by the paleontological aspects The latter section is further organized to present the record of the marine environment first before moving onto land with fauna followed by flora The volume closes with a review of the end Triassic extinctions Cephalopods Present and Past: New Insights and Fresh Perspectives Neil H. Landman,Richard Arnold Davis,Royal H. Mapes,2007-09-09
