

Reflection and Planning

This section supports early learning and child care educators in their reflection and planning processes. The reflection and planning guide assumes a strong, capable image of the child and family, described in the previous documents, *The Image of the Child: A Mighty Learner and Citizen and A Practice of Relationships: Your Role as an Early Learning and Child Care Educator*. Within the Alberta curriculum framework, content begins with the experiences of children and engages educators as co-learners, co-researchers and co-imagers of possibilities. In these roles, educators are encouraged to make use of a **co-inquiry** process¹ and emergent curriculum² planning in ways that notice and name what children are doing in their play, learning and development; reflect and interpret using the curriculum goals and children's dispositions to learn; and then, co-imagine possibilities with children, families and colleagues for further exploration and play. The physical and responsive environment—including time, space, materials, and participation—changes to reflect how educators make meaning of the curriculum that children are already engaged in through this emergent and reflective process.
