affectionate as it is entertaining In taking us behind the scenes into the Van Wyk household we witness the inner workings of the mind of a storyteller from the flowering of his father s activism wit and wisdom to the sources of his occasional quirky outbursts If storytelling runs in the genes Kevin may just be proof that his father s spirit lives on **Identities** Leon De Kock,Peter Southey,2002 Who are we and how do we define ourselves This may seem a simple question but in South Africa over the past few decades the issue of identity has been the source of much conflict deep suffering and ultimately liberation

changing conditions and roles of writers from the 1960s to the present While the early pictures were mostly taken in exile there is a distinct shift as writers came back to South Africa in the early nineties The most recent photographs were taken after the Pretoria Writers Conference in 2002 which provided landmark debates around the identity and role of writers currently living in South Africa A foreword by Keorapetse Willie Kgositsile reflects on the early times while short texts by some of the more recent writers reflect the diversity of views held by writers living in contemporary South Africa

Trauma, Memory, and Narrative in the Contemporary South African Novel, 2012-01-01 The contributions to this volume probe the complex relationship of trauma memory and narrative By looking at the South African situation through the lens of trauma they make clear how the psychic deformations and injuries left behind by racism and colonialism cannot be mended by material reparation or by simply reversing economic and political power structures Western trauma theories as developed by scholars such as Caruth van der Kolk Herman and others are insufficient for analysing the more complex situation in a postcolony such as South Africa This is because Western trauma concepts focus on the individual traumatized by a single identifiable event that causes PTSD Post Traumatic Stress Disorder What we need is an understanding of trauma that sees it not only as a result of an identifiable event but also as the consequence of an historical condition in the case of South Africa that of colonialism and more specifically of apartheid For most black and coloured South Africans the structural violence of apartheid's laws were the existential condition under which they had to exist The living conditions in the townships pass laws relocation and racial segregation affected great parts of the South African population and were responsible for the collective traumatization of several generations This trauma however is not an unclaimed and unclaimable experience Postcolonial thinkers who have been reflecting on the experience of violence and trauma in a colonial context writing from within a Fanonian tradition have on the contrary believed in the importance of reclaiming the past and of transcending mechanisms of victimization and resentment so typical of traumatized consciousnesses Narration and the novel have a decisive role to play here

The Columbia Guide to South African Literature in English Since 1945 Gareth Cornwell, Dirk Kloppe, Craig

Mackenzie, 2010-04-13 From the outset South Africa's history has been marked by division and conflict along racial and ethnic lines From 1948 until 1994 this division was formalized in the National Party's policy of apartheid Because apartheid intruded on every aspect of private and public life South African literature was preoccupied with the politics of race and social engineering Since the release from prison of Nelson Mandela in 1990 South Africa has been a new nation in the making inspired by a nonracial idealism yet beset by poverty and violence South African writers have responded in various ways to Njabulo Ndebele's call to rediscover the ordinary The result has been a kaleidoscope of texts in which evolving cultural forms and modes of identity are rearticulated and explored An invaluable guide for general readers as well as

scholars of African literary history this comprehensive text celebrates the multiple traditions and exciting future of the South African voice Although the South African Constitution of 1994 recognizes no fewer than eleven official languages English has remained the country's literary lingua franca This book offers a narrative overview of South African literary production in English from 1945 to the postapartheid present An introduction identifies the most interesting and noteworthy writing from the period Alphabetical entries provide accurate and objective information on genres and writers An appendix lists essential authors published before 1945
