Chris Roberts, Jay Black, 2021-11-29 The second edition of *Doing Ethics in Media* continues its mission of providing an accessible but comprehensive introduction to media ethics with a grounding in moral philosophy to help students think clearly and systematically about dilemmas in the rapidly changing media environment. Each chapter highlights specific considerations, cases, and practical applications for the fields of journalism, advertising, digital media, entertainment, public relations, and social media. Six fundamental decision-making questions, the 5Ws and H, around which the book is organized, provide a path for students to articulate the issues, understand applicable law and ethics codes, consider the needs of stakeholders, work through conflicting values, integrate philosophic principles, and pose a test of publicity. Students are challenged to be active ethical thinkers through the authors' reader-friendly style and use of critical early career examples. While most people will change careers several times during their lives, all of us are life-long media consumers, and *Doing Ethics in Media* prepares readers for that task. *Doing Ethics in Media* is aimed at undergraduate and graduate students studying media ethics in mass media, journalism, and media studies. It also serves students in rhetoric, popular culture, communication studies, and interdisciplinary social sciences. The book's companion website, doingethicsinmedia.org or www.doingmediaethics.com, provides continuously updated real-world media ethics examples and collections of essays from experts and students. The site also hosts ancillary materials for students and for instructors, including a test bank and instructor's manual.

The Oxford Handbook of Musical Repatriation Frank D. Gunderson, Robert C. Lancefield, Bret D. Woods, 2019 *The Oxford Handbook of Musical Repatriation* is a significant edited volume that critically explores issues surrounding musical repatriation, chiefly of recordings from audiovisual archives. The Handbook provides a dynamic and richly layered collection of stories and critical questions for anyone engaged or interested in repatriation or archival work. Repatriation often is overtly guided by an ethical mandate to return something to where it belongs by such means as working to provide reconnection and Indigenous control and access to cultural materials. Essential as these mandates can be, this remarkable volume reveals dimensions to repatriation beyond those which can be understood as simple acts of giving back or returning an archive to its homeland. Musical repatriation can entail subjective negotiations involving living subjects, intangible elements of cultural heritage, and complex histories situated in intersecting webs of power.

relations and manifold other contexts The forty eight expert authors of this book s thirty eight chapters engage with multifaceted aspects of musical repatriation situating it as a concept encompassing widely ranging modes of cultural work that can be both profoundly interdisciplinary and embedded at the core of ethnographic and historical scholarship These authors explore a rich variety of these processes many streams making the volume a compelling space for critical analysis of musical repatriation and its wider significance The Handbook presents these chapters in a way that offers numerous emergent perspectives depending on one s chosen trajectory through the volume From retracing the paths of archived collections to exploring memory performance research goals institutional power curation preservation pedagogy and method media and transmission digital rights and access policy and privilege intellectual property ideology and the evolving institutional norms that have marked the preservation and ownership of musical archives The Oxford Handbook of Musical Repatriation addresses these key topics and more in a deep richly detailed and diverse exploration
