**Modern Guide to Knowledge** Francisco J. Carrillo, 2022-11-18 Outlining an integrative theory of knowledge Francisco Javier Carrillo explores how to understand the underlying behavioural basis of the knowledge economy and society Chapters highlight the notion that unless a knowledge based value creation and distribution paradigm is globally adopted the possibilities for integration between a sustainable biosphere and a viable economy are small

**Transportation, Knowledge and Space in Urban and Regional Economics** Kakuya Matsushima, William P. Anderson, 2018-04-27 This collection of 16 original research chapters by international scholars addresses the complementary roles of transportation and knowledge and their spatial manifestations in modern urban and regional economies The authors provide research from North America Europe and Asia While the studies employ sophisticated methods and theory there is a strong element of practical applications and policy implications in each chapter as well This book will be of interest to communities of research and practice in urban and regional economics and planning regional science and economic geography transportation research planning and management and the knowledge economy

**A Critical Mind** Christine Godt, Matthias Lamping, 2023-06-22 This book traces the academic footprint of Hanns Ullrich Thirty contributions revolve around five central topics of his oeuvre the European legal order competition law intellectual property the regulation of new technologies and the global market order Acknowledging him as a trailblazer the book aims to capture how deeply Hanns Ullrich has influenced contemporaries and subsequent generations of scholars The contributors reiterate the path breaking patterns of

his teachings such as his contemplation of intellectual property as embedded in competition the necessity of balancing private and public interests in intellectual property law the policies of market integration and the peculiar relationship of technological advancement and protectionism

**Sources of Knowledge and Entrepreneurial Behavior** David B. Audretsch, Albert N. Link, 2019-01-01 Sources of Knowledge and Entrepreneurial Behavior delves into the nature and importance of the relationship between sources of knowledge and entrepreneurial behavior and should be of interest to both academics and policy makers David B Audretsch and Albert N Link use the Knowledge Spillover Theory of Entrepreneurship as the conceptual foundation for why individuals decide to become entrepreneurs Then using a database of more than 4 000 small and relatively new European companies from 10 different countries called the AEGIS database Audretsch and Link offer new insights about the relationship between knowledge sources and entrepreneurial behavior In their analysis of the empirical evidence in support of the Knowledge Spillover Theory of Entrepreneurship Audretsch and Link conclude that there is no singular source of knowledge driving entrepreneurship but a plethora of knowledge sources each associated with different dimensions of entrepreneurial activity The intellectual breakthrough in this book is not that knowledge matters or that it especially matters for entrepreneurship Rather Audretsch and Link show that knowledge and especially entrepreneurial knowledge is not a homogeneous phenomenon There are multiple sources of knowledge that act on entrepreneurial performance in a myriad of ways

Making Sense of the Learning Turn Anders Örtengren, 2024-05-09 From learning toy and learning society to learning city and learning organization what is meant by learning The main focus of this volume is to increase our understanding of the learning turn referring in this book to the frequent occurrence and usage of terms in the last few decades where the word learning is the premodifier The authors also offer insights into the use of the word learning as a premodifier in the future and discuss what if anything may replace it such as knowledge as in knowledge management and smart as in smart city An extensive range of academic disciplines are covered including political science economics human geography philosophy linguistics higher education working life science management and organization and marketing While a single overall unified conclusion is not provided Making Sense of the Learning Turn presents a variety of voices and perspectives Some contributors are critical towards the learning turn explaining it in terms of fashion following manipulation and seduction Others interpret the learning turn more lightly or suggest a more collective form of learning as an alternative to the individualization of learning that some authors argue has been the case thus far

**The Evolutionary Complexity of Endogenous Innovation** Cristiano Antonelli, The notion of endogenous innovation as the outcome of the creative response of firms to out of equilibrium conditions is the cornerstone of the new evolutionary complexity This book elaborates and applies the theoretical framework established in the author's previous work Endogenous Innovation The Economics of an Emergent System Property This volume carefully explores the role of the reactivity of firms to out of equilibrium conditions It also examines the quality of knowledge governance mechanisms in assessing the levels of

externalities that define the likelihood of creative responses as an alternative to adaptive responses **From Industrial Organization to Entrepreneurship** Erik E. Lehmann, Max Keilbach, 2019-10-04 This book celebrates the contributions of David B Audretsch Distinguished Professor at the School of Public and Environment Affairs SPEA at Indiana University USA co founder and co editor of Small Business Economics and former Director of the Entrepreneurship Growth and Public Policy Group at the erstwhile Max Planck Institute of Economics Jena Germany For his pioneering work which explores the links between entrepreneurship government policy innovation economic development and global competitiveness he has received the 2001 Global Award for Entrepreneurship Research from the Swedish Foundation for Small Business Research and the 2011 Schumpeter Prize from the University of Wuppertal Germany This volume features original contributions from over 50 leading scholars to map analyze and evaluate the impact of Audretsch s research on a broad spectrum of research fields ranging from economics to entrepreneurship and geography The development and evolution of key ideas which have significantly shaped theory and future research across these fields are also explored Routledge Handbook of Sustainable Design Rachel Beth Egenhoefer, 2024-04-15 The Routledge Handbook of Sustainable Design considers the design not only of artifacts but of structures systems and interactions in the context of sustaining our shared planet This revised edition introduces new and updated chapters as well as a new section on pedagogy for sustainable design With authors from around the world design is positioned in context with recent crises such as global pandemics racial reckoning political unrest and natural disasters Just as design is an interdisciplinary field the climate crisis is deeply tangled in racial justice gender justice global health economics trade and more Divided into six sections it presents a holistic approach to understanding the many facets of sustainable design Part 1 Systems and Design Part 2 Complexities of Sustainable Design Part 3 Community Engaged Design for Local and Global Diversity Part 4 Design for Sustainable Behaviors Part 5 Design Futures Part 6 Pedagogy in Design for Sustainability Arguing that design needs to restore regenerate and rejuvenate our planet and people this handbook will be invaluable to researchers students and practitioners across all subdisciplines of design architecture business energy management visual arts and environmental studies among others Endogenous Innovation Cristiano Antonelli, This ground breaking new book builds upon the Schumpeterian creative response The author shows that firms in out of equilibrium conditions try and react by means of introducing innovations The success of their reaction is contingent upon their access conditions to knowledge which are shaped by the system in which they operate The emergence of new innovations can in turn knock firms further out of equilibrium and cause changes in the system properties that govern their access to external knowledge This path dependent loop of interactions between the system properties and the individual actions of firms accounts for endogenous innovation and the dynamics of the system Research Handbook on the Sociology of Knowledge Fran Collyer, 2025-07-15 This timely Handbook celebrates and contributes to the recent revitalisation of the sociology of knowledge A diverse group of leading experts from the global North and South provide a state of the art

overview of a field which is developing rapidly with the growth of poststructuralist postcolonial and feminist approaches

*Global Poverty*, 2022-11-21 Much ink has been spilled on poverty measurements and trends at the expense of revealing causality Assembling multi disciplinary and international contributions this book shows that a causal understanding of poverty in rich and poor countries is essential That understanding must be based on a critical interrogation of the wider social relations which set up the mechanisms producing poverty as an outcome Processes that widen strengthen crisis ridden market relations that increase income wealth inequality and that enhance the policy biases of nation states and international institutions toward the affluent propertied strata cause global poverty and undermine poor people s political power The processes concentrating wealth creation are poverty causing processes Through theoretical and empirical analyses this volume offers important insights and political prescriptions to address global poverty Contributors are Raju J Das Deepak K Mishra Steven Pressman Michael Roberts Jamie Gough Aram

Eisenschitz Anjan Chakravarty Mizhar Mikati Marcelo Milan Tarique Niazi John Marangos Eirini Triarchi Themis Anthrakidis Macayla Kisten and Brij Maharaj David Michael M San Juan and Thaddeus Hwong *Embodiment, Political Economy and Human Flourishing* Frédéric Basso, Carsten Herrmann-Pillath, 2024-05-11 This book presents embodied economics as a foundational alternative to behavioral economics and other projects integrating economics and psychology inspired by the computational paradigm The 20th century witnessed the disembodiment of economic models through the intensification of mathematization and formal abstraction in economics Even proponents of an embodied approach to cognition such as Hayek paradoxically championed the abstract market order as a disembodied superhuman intelligence In the wake of groundbreaking perspectives in cognitive and social sciences which have helped to rethink the fundamental building blocks of economics agency and institutions this title takes a radical turn towards embodiment Reinstating economics as political economy embodied economics motivates a critique of capitalism based on the analysis of disembodiment through abstraction and reactivates key critical insights into the anthropology put forward by the young Marx about contemporary economics and its conceptualizations of money property and labor Based on this analysis the authors envision a concrete utopia for an economic order centered on human dignity and care for life on Earth This book contributes to recent discussions about behavioral experimental and neuroeconomics and addresses a transdisciplinary audience in the social and behavioral sciences philosophy and the humanities *A Translation Theory of Knowledge Transfer* Kjell Arne Røvik, 2023-03-28 In *A Translation Theory of Knowledge Transfer* Kjell Arne Røvik develops a new theory on the challenges of transferring and sharing knowledge across organizational borders Based on extensive research he proposes a new reframing idea of knowledge transfer as acts of translation resembling the translation of texts This new concept both extends and challenges established theories of knowledge transfer Containing a comprehensive review of the last 40 years of research on knowledge transfer across organizational borders this book also offers a step by step account of how a new theory within organizational research has been developed Røvik states that the capacity of an organization to transfer and exploit knowledge from other organizations is a key to its competitiveness progress and even survival and convincingly argues how this new translation theory can be used to guide practitioners involved in knowledge transfer processes **Citizen Knowledge** Lisa Herzog, 2023-09-15 *Citizen Knowledge* discusses how various forms of knowledge are dealt with in societies that combine a democratic political system with a capitalist economic system How do citizens learn about politics How are scientific insights taken up in politics What role can markets play for processing decentralized knowledge Lisa Herzog argues that the fraught relation between democracy and capitalism gets out of balance if too much knowledge is treated according to the logic of markets Complex societies need different mechanisms for dealing with knowledge among which democratic deliberation and expert communities are central *Citizen Knowledge* develops the vision of an egalitarian society that considers the use of knowledge in society a matter of shared democratic responsibility **Understanding Marxism** Richard D.

Wolff,2018-11-26 Why should we pay attention to the great social critics like Marx Americans especially now confront serious questions and evidences that our capitalist system is in trouble It clearly serves the 1% far far better than what it is doing to the vast mass of the people Marx was a social critic for whom capitalism was not the end of human history It was just the latest phase and badly needed the transition to something better We offer this essay now because of the power and usefulness today of Marx s criticism of the capitalist economic system eBook <https://bit.ly/2K6iI8v>
